norfolk, va

With a strong focus on research and development, Essential produces polymers and resins for floor finishes as well as a variety of detergents. It produces raw materials for the coating industry and packaged finished goods for the sanitary maintenance supply industry.

Floor care has been the foundation for Essential's growth. This, combined with its knowledge of the industry and markets, has allowed the company to develop systems of products that reduce maintenance costs and increase worker productivity.

Essential Industries' Green Essence™ floor care program addresses both environmental impact and user safety. The products in this program exceed all current federal environmental regulatory requirements.

Green Essence floor care products are non-corrosive, ethylene glycol ether-free, VOC-compliant, zinc-free, non-carcinogenic, non-combustible, non-sensitizing, and APEO-free, including no NPE's.

X-Coat Nano is different from traditional floor finishes and coatings because it doesn't use large ammonia complexes in the construction of its polymer matrix. Instead it utilizes our patented Nano-Zinc Technology, a technology previously considered to be impossible. Without the need for ammonia, X-Coat Nano can form strong, dense cross-linking between the polymers. And it does this with extraordinary speed using permanent, irreversible chemical bonds. This means X-Coat Nano has rapid gloss build, is highly resistant to soil and heel marks and will significantly extend your maintenance cycle to saving you time and money.

Sport Kote is a full-matrix self cross-linking technology makes this ultra-rapid curing finish highly durable. There's no sanding, catalyst or messy glues. Because it's a single-component finish, you just pour and go. You can play on it the next day and it's good for a year. 500 million square feet of wood floor finished with Sport Kote says it all!

Cavalier Inc. Endorses:

- Certified Green Floor Care

- WORK as well as Conventional Floor Products
- Significantly Safer!
- No Longer More Expensive!

- Nano Floor Care

- Call Cavalier Inc. to be educated on this new technology!

- Water Based Gym Finishes

- Significantly Safer!
- No Sanding or Screening
- 24 Hrs Prep to Play

What We Stock:

Certified Green Floor Care

8201FF-5GP

G2, Green Seal, Floor Finish
