Keeping the world smelling fresh since 1971

Why Choose Fresh?

Fresher restrooms → Happier, more productive employees

The happiest employees are **50%** more motivated & productive in the workplace. Restrooms only account for about **5%** of the cleanable area of a facility. Yet approximately **95%** of all cleaning complaints are restroom related.

Women comprise **53%** of the U.S. workforce and care more about their workplace cleanliness than men do. Restroom cleanliness is particularly important to women as they spend twice as long on average in the restroom compared to men.

Forbes. "Start Smiling: It Pays To Be Happy At Work" 14 August 2010.

Help make your workforce **happier** and **more productive** by keeping your restrooms smelling **fresh**.

And while we freshen your inside environment, we also care for the outside environment as well:

- Our products are formulated using biodegradable and/or recycled raw materials and manufactured using substantially less energy, yet provide best in class performance.
- Meets 'The Purchase of Sustainable Products and Materials' criteria under the LEED point management system.
- Easily recycled using the industry's first closed loop recycling program, Eco-ReFresh. How does Eco-ReFresh work? It's easy as 1, 2, 3...

Freshens consistently for 30 days

Releases approximately the same amount of air freshener daily over 30 days by controlling the fan's operation. Controlled by a computer program, the fan turns sparingly in week 1, and gradually turns more frequently until week 4 when the fan turns constantly.

Patent Pending

Freshens anywhere for 30 days!

Easy to use

This smart dispenser remembers everything so you don't have to! Replacing the cover activates a 33 day computer program with the following prompts:

- **Days 1-29** : green LED flashes indicating 'all systems go'
- **Day 30+** : red LED flashes indicating 'time to change cover'
- **Day 33+** : red LED flashes *plus* audible alert sound every 3 1/2 minutes
