providing facility health solutions

In today's dynamic and fast-paced world, Cavalier, Inc. has become an industry and community leader. As our broad-ranging customer base, and their needs, directives, and buying habits have evolved over time, so has our vision and expertise. The customer-focused mission of Cavalier, Inc. is to “provide facility health solutions”, while incorporating the latest technology, social media influence, and process-oriented business practices. Rather than wait for our customers to change, and then react, we will provide the way forward and lead our customers to the best solution. Sustainable, “green” (i.e. healthy) products and services are the foundation and future for healthy facilities, healthy and happy occupants and employees in those facilities – and as an end result – a healthier community. Aside from the physical health benefits, the financial benefit to our customers is that all of this can be done in cost-effective, energy-efficient ways that will ultimately increase their bottom lines – leading to overall healthier and happier organizations. Cavalier, Inc. is 100% committed and dedicated to these new and forward-thinking initiatives. 71 years of company history, and many more combined years of experience, have led to this point, and to our new and encompassing goal and mantra – **Health, and the Pursuit of Happiness.**

For over 65 years Multi-Clean has been developing and manufacturing high performance cleaning and floor maintenance products for commercial facilities. The Multi-Clean brand signifies quality and performance you can count upon.

Multi-Clean practices Green Leadership in the Cleaning Industry by adhering to these five guiding principles:

- 1 **Lead by Example** by continuously striving toward sustainability within our company.
- 2 **Inspire Our Customers** to embrace green cleaning and make it the only way to clean.
- 3 Make it our responsibility to **Share Knowledge and Expertise** with customers to make it easier to go green.
- 4 **Promote Education and Training** as an investment that offers a valuable return.
- 5 Develop and manufacture **Better and Safer Products** for people and the environment.

Multi-Clean has been at the forefront of promoting green cleaning in the marketplace through education sales tools, training programs, green seminars, and green cleaning publications. Multi-Clean's commitment to protecting people that use our products and the environment has been acknowledged by the U.S. Environmental Protection Agency. Multi-Clean was one of a small group of manufacturing companies that has been designated as a CHAMPION of the environment by the U.S EPA.
