Cavalier Inc. Endorses:

PURADIGM Air & Surface Purification Systems

The Puradigm Purification System has been developed to deliver solutions for the worlds most challenging indoor issues.

Puradigm's Air Technology, using an enhanced ionization output, represents the newest generation of proactive air and surface purification. It is completely safe, unlike high levels of ozone, and effectively reduces mold, mildew, bacteria, viruses, odors, volatile organic compounds (VOCs), and the odors associated with them at their source, in the air, and on surfaces. Puradigm technology & solutions have been developed to address a variety of commercial air & surface purification issues.

- Reduce harmful bacteria and virus in buildings.
- Purify air & surface without toxic chemicals.
- Enhance the quality of indoor environments with Natures Purity.

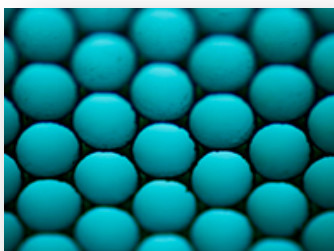

Broad spectrum UV X Lamp

Puradigm Air utilizes a broad spectrum UV X Lamp that peaks at 253.7 & 185.4 nanometers. Typical PCO Bulbs are 385 nanometers.

University Tested

Leading university experts have tested the technologies included in Puradigm Air. The core technologies have evolved over the years to be even more effective and our research and testing continue every day.

Honeycomb Matrix

Puradigm Air uses a unique honeycomb matrix to maximize the surface exposure available to create the photo catalytic reaction.
