Sunburst Chemicals is...

A Bloomington, Minnesota based manufacturer and distributor of the highest quality laundry, warewash and general/sanitizing cleaning products in the industry. The company is a family owned and operated company established in 1922. Sunburst specializes in providing laundry and food service cleaning and sanitation chemicals and is an emerging national provider addressing the lodging/hospitality, healthcare and food service markets.

Sunburst Chemicals offers a selection of products to meet the requirements of specific applications, providing the total package – detergents and dispensers – made specifically to compliment each other and together, improve performance. Our patented dispensers provide consistent and reliable product use.

Our goal for all Sunburst Chemicals customers is to provide the highest quality of sanitation with our commitment to respect and conserve the nation's precious resources. We believe that our company must lead and promote the safety and conservation of our planet. As a responsible chemical company that sees sanitation as a must in the world of ever growing threats to health, we are committed to combat bacteria and germs that endanger our population's health by using advanced chemical technology and methods that will protect and preserve our environment.

Leveraging Technology

Evolution of the Solid Revolution

Prior to the 1970s, powder detergents were the popular and accepted standard for most cleaning applications. Everyone—from janitors, to commercial launderers, to restaurateurs—used powders to clean and sanitize in their working environment. In the 70s, liquid detergents came to the forefront. They were easy to use, could be diluted on sight and quickly outdated the tried and true powders. Then came an invention that would revolutionize the cleaning industry. Sunburst Chemicals, at the forefront of this revolution, began producing solid detergents.

Sunburst's Solid Detergent Technology Provides:

- Increased Product Concentration
- Reduced Storage, Freight, and Handling
- Lower Total Operating Costs
- Enhanced Product Performance
- Environmentally-Friendly Products
- Infinite Product Shelf Life
- Small Dispenser Size
- Ease of Training and Use
- Controlled Product Usage

We use technology to deliver the quality results and value that our customers demand.

Increased Workplace Safety

Our solid detergent technology improves workplace safety. Solids in their natural state cannot be spilled, splashed or mixed by hand which greatly reduces the risk of employee contact with chemical concentrates, in turn reducing employer risk and exposure.

Sunburst Advocates for the Environment By:

- Reducing fuel consumption associated with shipping
- Incorporating self-rinsing containers, which means no unused chemicals being delivered to landfills
- Using 100% recyclable material
- Supporting the EPA's DFE (Design for Environment) Program
- Reducing our customers total energy consumption

We are proud of our commitment to the environment.

Our commitment to service & training insures your needs are met.

Training and Support Services

Sunburst prides itself on producing easy-to-use programs and expert local support. We provide value to our customers by putting your interests first. This effort guarantees that when you have a sanitation requirement you will receive the proper assistance to analyze your situation and provide a solution that best meets your needs.

Our Standard Services Include:

- **Training** — Sunburst will work with you to determine your specific training needs and provide you with a program that best meets your needs. We will oversee all sanitation training, develop and provide training materials, and generate new training aids as required.
- **Managing Your Overall Total Costs** — We will consistently measure our performance against your total operational costs to insure we provide you with the best overall value. We will provide you with detailed reports that track current operational performance and costs, and recommend actions that will enhance future performance.
- **Coordination with Risk Management** — We interface with health inspectors and independent auditors to make sure you are meeting the regulatory requirements of your locations.
- **Coordination of New Installations** — As new locations open and your business expands, we will coordinate the installation and training of new employees on our products and systems.
- **Troubleshooting** — Should problems arise, we are only one phone call away and will be at your location for prompt problem resolution.
- **Managing Product Inventory** — We will do our best to see that your locations never run out of critical sanitation supplies, and provide you with quick, local deliveries.
- **State-of-the Arts Dispensers** —
Our easy-to-use dispensers help reduce training and service requirements.

Sunburst Chemicals

Offering environmentally responsible solutions...

Leading the Way to Greener Cleaning

Sunburst Chemicals continues to be on the forefront of cleaning technology, and has been since we began producing solid detergents in the early 1980s. Solids' unique design not only saves on the environment, but also reduces energy consumption and increases workplace safety. With products that are DfE certified, as an active member of CleanGredients™, and using lean manufacturing practices, Sunburst Chemicals has the expertise and the products to deliver the best environmental solutions for your cleaning needs.

Reduce & Recycle

When it comes to protecting the environment, Sunburst's solids offer many advantages:

- Solid technology leverages state-of-the-art surfactant technology — you get the best cleaning through a 100% concentrate.
- Solids' 100% concentrate reduces container size. Solids' containers use the least grams of plastic per volume of use solution in the industry.
- Empty means empty
 - No chemical residue left in the container to end up in landfills.
 - No rinsing required, so no wasted water and nothing down the drain.
- Containers are Class 2 recyclable.

Sunburst Chemicals is a leader in green cleaning expertise by:

- Working with the EPA to develop Sunburst products with DfE certification
- Being an active member of CleanGredients™
- Practicing lean manufacturing

Saving Energy

Environmentally-responsible solutions must consider the complete picture, including operational efficiencies and energy usage. Sunburst solids offer energy savings by:

- Reducing fuel consumption for freight and delivery — solids take up less space, which requires fewer trucks to ship them.
- Reducing heat required for transport and storage, because solids will not freeze or thaw.
- Reducing operational utility costs through products, training, and consultations. This alone can save thousands of dollars.

Sunburst takes into consideration all angles of energy consumption and provides the best formulas for overall energy reduction with while maintaining quality cleaning results.

Increasing Health & Safety

Sunburst products and programs clean better and deliver quality results... and a cleaner facility is a safer one. Advantages of our products include:

- Solids in their natural state cannot be spilled, splashed or mixed by hand, which greatly reduces the risk of employee contact with chemical concentrates, helping employers maintain a healthier, safer workplace.

Solid Green Pot and Pan #40
Green DfE Dish Detergent
Developed in partnership with the EPA's "Design for the Environment."

...Go green.

DfE : Design For the Environment

The DfE Program is a voluntary partnership program that works directly with industries to integrate health and environmental considerations into their business decisions. DfE is also a recognized approach that companies first adopted in the late 1980s that involves thinking in terms of “design for” qualities or traits in products and process design. In the environmental field, views on risk management have shifted to approaches that promote reducing risks to human health and the environment through pollution prevention or source reduction instead of relying on end-of-the-pipe pollution control.

CleanGredients™

CleanGredients is an online database of institutional and industrial (I&I) cleaning ingredients — the online resource for green formulation. CleanGredients aligns broad environmental and human health goals with the cleaning product industry’s business objectives and will support formulation of products with human and environmental health benefits, whether to meet corporate internal objectives, regulations, voluntary product recognition programs, or national and international eco-labels. CleanGredients is designed to:

- Help formulators identify ingredients that have potential environmental and human health and safety benefits,
- And provide opportunity for manufacturers and producers of cleaning ingredients to showcase their ingredients with potential environmental and human health and safety benefits.

Surfactants listed in CleanGredients are, at a minimum, ultimately biodegradable. Data for aquatic toxicity, biodegradability, and the ingredient formulations are reviewed by a third party (NSF International) using the DfE Screen for Surfactants, a set of criteria defined by the U.S. EPA Design for the Environment (DfE) program that designates surfactants with especially positive environmental characteristics. NSF’s reviews are carried out under confidentiality, providing verification of claims for the key ingredient attributes for surfactants without compromising proprietary formulations.

GS-33 Green Lodging Standards

Sunburst has the products that are compliant with the standards established for Green Lodging properties.

- Property shall demonstrate that chlorinated chemicals are used only where there is no less toxic alternative, and only in minimal amounts.
- Property shall use automatic dishwashing detergent that is biodegradable, does not contain NTA (nitrilotriacetic acid), and does not contain chlorine bleach.
- Property shall use non-phosphate, nontoxic, biodegradable, concentrated liquid or powder laundry detergents.
- Property shall use non-phosphate, nontoxic, biodegradable, concentrated liquid or powder cleaning products, fertilizers and biocides and/or integrated pest management (IPM) techniques.

Lean Manufacturing

Lean manufacturing is a business model that emphasizes eliminating waste while delivering quality products at the least cost to the manufacturer and customers. In the U.S., lean implementation began in the 1980s. Lean thinking focuses on three objectives:

1. Reducing production resource requirements by minimizing inventory, equipment, storage and production space, and materials;
2. Increasing manufacturing velocity and flexibility; and
3. Improving quality and eliminate defects.

Lean methods create a continual improvement-based, waste elimination culture that involves workers at all levels of the organization.

The Right Dispensers to Complete the Solution

When determining the best cleaning solution, there's more to consider than just products. Dispensing options and combinations of products are critical parts of the equation to provide the best complete solution. Sunburst offers a variety of dispensers and will recommend products that work well together to meet your specific application requirements.

Conserv Energy System (CES)

is “solid patented technology” that allows you to protect your environment AND save money.

U.S. Patent No. 5,830,839

Developed in partnership with the EPA's "Design for the Environment."

The Sunburst Conserv Energy System™ (CES): *Cold Water Use. Hot Water Results.*

The Conserv Energy System cleans even heavily soiled textiles in water temperatures ranging from “cold” to 120 degrees. This advanced laundry detergent system was developed in partnership with the EPA’s “Designed for the Environment” program.

CES is a blend of proprietary EPA-approved surfactants, highly-active enzymes, powerful oxygen bleach, and an easy-to-use dispensing system. A key piece of the Conserv Energy System is Sunburst’s new Compass solid laundry detergent.

Compass is a revolutionary one-shot system that most often requires *NO* additional chemicals in the washing process. It is 100-percent biodegradable and is made from a 100-percent “green” formulation. It has no phosphates, caustics, nonylphenol ethoxylates, toxic polymers, solvents, dyes, or perfumes. It cleans by breaking apart soils and other tough stains which can then be easily washed away. It packs a powerful cleaning punch, and allows users to save, save, save!

Compass Saves...

... **water utility costs** by cleaning without alkalinity, separate bleaching steps, an acid sour step, or numerous rinses. The result is less overall water usage, and that adds up to lower water utility costs.

... **heating utility costs** by cleaning light, medium and heavily soiled textiles in water temperatures from “cold” to temperatures of 120 degrees. The result is less hot water usage, and that adds up to lower natural gas costs.

... **electrical utility costs** by eliminating unnecessary wash steps and reducing wash time. The result is less kilowatt-hours consumed running the motors, and that adds up to lower electricity costs.

... **labor costs** by washing faster and producing more loads per hour than conventional washing programs. The result can be a reduced or redirected operation staff, and that adds up to lower labor costs and/or a more productive labor team.

... **washing equipment wear** by using less time to launder the same number of textiles in a given machine. The result is less run time, and that adds up to lower maintenance and repair costs, and longer machine life.

... **textile replacement costs** by washing for a shorter period of time in non-harsh chemistry and low-temperature water. The result is prolonged textile serviceability, and that adds up to lower replacement costs.

Conserv Energy System – Complementary Products

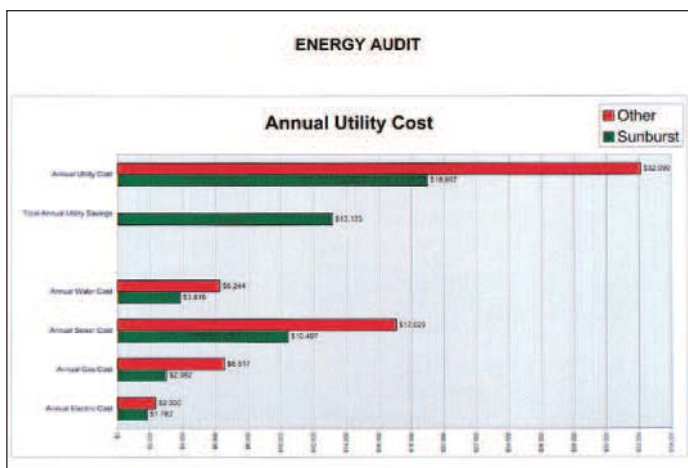

Sunburst Chemicals understands and appreciates that not all laundry operations are the same. The Conserv Energy System is adaptable to your specific laundry cleaning situation and needs, and includes a full line of complementary solid laundry products to enhance your operation while saving you money, time and energy. Solid chemicals reduce inventory and handling costs and provide for safe, convenient, handling by employees.

Conserv SG65 Laundry Detergent is a one-shot laundry detergent with special ingredients to remove heavy grease and particulate soils from all fabrics. Contains water conditioners for a clean, bright wash. Safe and convenient form eliminates the potential hazard of employee injury by accidental contact with product.

Conserv SG55 Color Safe Bleach is a solid oxygen bleach that whitens, brightens, and removes even the toughest stains in hard, soft, warm or cold water. It minimizes textile strength loss caused by misuse of chlorine bleach, and leaves textiles fresh and odor free. Conserv SG55 Color Safe Bleach is designed to be used during the wash step, saving time and energy.

Conserv SG80 Fabric Softener is a solid softener that speeds extraction and drying time while reducing wrinkling and static cling. It enhances the fluffiness and smoothness of cottons and cotton/polyester blends. Proper use can help preserve cotton goods and prolong the textile life. Conserv SG80 Fabric Softener boosts fabric whiteness and brightness. It helps to reduce energy consumption, as well as production handling and finishing time.

Conserv SG84 Iron Removing Sour is a solid neutralizer that reduces staining problems associated with iron and other minerals by effectively controlling metals in the water. It keeps these materials from depositing on the textiles, providing optimum stain protection. It can condition textiles for high speed finishing, and eliminates speckling during the pressing process.

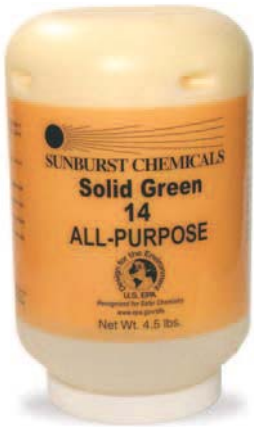

See the Savings of CES Using Energy Audit Software

Sunburst Chemicals Energy Audit software allows you to quickly and easily assess your current utility costs while showing you a potentially better option. Simply plug in the modules required, and your current utility unit costs (electricity, gas, sewer, water) and even labor. Comprehensive, detailed comparisons are made of your current laundry utility cost and a Sunburst Chemicals alternative. The software does the calculations for you. In many cases you'll find that Sunburst products will use less electricity, less gas, less hot water, and save labor costs.

Green Supermarket Program

Solid detergents are safer, more reliable and the best environmental choice when compared to powder or liquid solutions.

See the Benefits of the Sunburst Supermarket Program

1. Food Safety

- ✓ Training — training package available to address all cleaning and sanitizing requirements
- ✓ Performance — outstanding performance based on extensive testing and customer testimonials
- ✓ Accurate dispensing demonstrates commitment to food safety

2. Employee Safety

- ✓ Solids are 10 times lighter than liquids, cannot be spilled, splashed, or mixed with other chemicals. This means solids offer reduced:
 - Back injuries — solids are 10 times lighter than comparable liquids or powders — less to lift/move
 - Slips and falls — accurate concentrations provide slip free floors. Solids cannot be overused or squeezed, torn, cut, or poured
 - Eye injuries — solids cannot be splashed
 - Burns / skin irritations — employees cannot come in contact with concentrated chemicals
 - Inhalation — reduced chance of creating poisonous gas — no hazardous mixing

3. Cost / Operational Efficiency

- ✓ Overuse eliminated — cannot be poured, glugged, or spilled — solid detergents must use dispensers
- ✓ Shipping costs reduced — transport 1 container solid versus 9 gallons liquid
- ✓ Storage space reduced — solids take up 9 times less space than liquids
- ✓ Shelf life extended — solids offer long storage stability and are freeze/thaw resistant
- ✓ Theft reduced — must be used in store through dispensers

4. Service / Training

- ✓ Training program and support materials, including dispensers, chemicals, safety, MSDS requirements, train the trainer programs
- ✓ Manuals to support detailed cleaning procedures
- ✓ Food safety certified field personnel focus on sanitation and food safety
- ✓ Service nationwide through our network of Select Service Providers (SSPs)
- ✓ 24/7 support for chemical spill, emergency medical, and technical service information

5. Environmentally Friendly Formulas

Sunburst has DfE certified products, is an active member of CleanGredients™, and uses lean manufacturing practices. In addition to this, solids offer:

- ✓ 10 times reduced fuel needed for shipping — solids don't contain water so there's less to transport
- ✓ 10 times reduced packaging in landfills — solid containers use less packaging
- ✓ Recyclable containers — containers are made of #2 plastic — just like a milk container
- ✓ No residual chemical — solid capsules are self-rinsed via the dispenser. No residual chemical is left to end up in the landfill.

Service, Service, Service!

Whether we're assisting you in developing proper cleaning procedures or working shoulder-to-shoulder to help educate your people, you're assured that each member of our team is a seasoned professional, committed to service. Sunburst prides itself on producing easy-to-use programs coupled with expert local support. Our support team provides easy-to-use programs and superior end-user training.

Supermarket Program Core Products

- Solid Green 40 Pot & Pan – Solid Pot/Pan Detergent
- Solid Green 14 All-Purpose – Solid Emulsion Degreaser
- Solid Green 22 Bio Active– Solid Drain & Grease Trap Treatment
- Solid Green 78 Glass & Neutral Cleaner – Solid Glass & Neutral Cleaner
- Solid Sentry – Multi-Purpose No-Rinse Sanitizer
- Solid Bio Clean – Germicidal Detergent/Disinfectant/Deodorant
- Solid Encore – Aluminum-Safe Warewashing Detergent

Ancillary Products

- Glass Cleaner 201 – Premium Quality Concentrate
- Vital – Bioactive Cleaner/Digestant
- Sundrops – Foaming Hand Soap
- CBW – Cutting Board Whitener
- Restore 77 – Boil Out Compound
- Attack – Oven/Grill Cleaner
- Lime Remover Plus – Acid Cleaner/Descaler
- Freezer Floor Cleaner – Below Freezing Cleaner
- Liquid Crème Cleanser – Disinfectant Crème Cleanser
- Tiffany Pink – Bowl/Urinal Cleaner
- So Easy – Stainless Steel Cleaner

Dispensing Systems

Sunburst Provides Products + Dispensers for Complete Solutions

When determining the best solution to a supermarket application, there's more to consider than just products. Dispensing options and combinations of products are critical parts of the equation to provide the best complete solution. Sunburst offers a variety of dispensers and will recommend products that work well together to meet your specific application requirements.

Master Blaster – Wash-rinse-sanitize dispenser for hose spray-down cleaning and sanitizing.

Grease Trap & Drain-Line

Sunburst Chemicals features SOLID GREEN Bio-Active, the industry's first green solid bacterial grease trap treatment product.

This information is available as a printable pdf. Go to: <http://www.sunburstchemicals.com/supermarket/index.html>

Trap Tender

A Complete Maintenance System for Drains to Keep Them Free-Flowing and Prevent Expensive Pump-outs

Preventative maintenance of drains and grease traps is essential to productivity levels of commercial kitchens.

A very real concern is shared by commercial kitchens, school and institutional cafeterias, restaurants, bakeries, delicatessens, and butcher shops — maintenance of their drains and grease traps. Stopped up plumbing can cause a disaster. It can cause flooding, stop work flow, contaminate food, cause odors, and jeopardize the sanitary conditions of an entire facility. Once this happens, many dollars and hours of hard work go into cleaning, sanitizing, and restoring the facility.

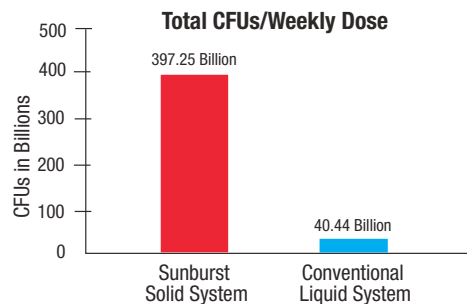

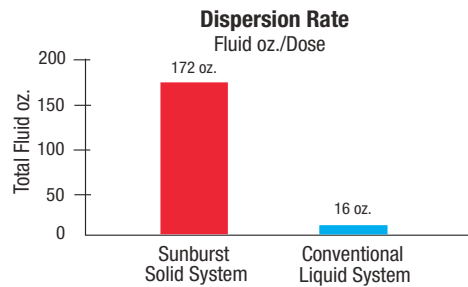

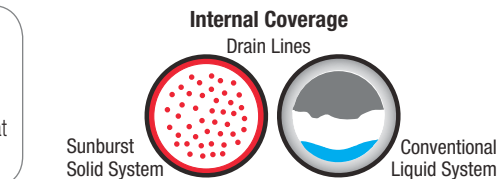

Preventative maintenance is the key to avoiding disaster, and Sunburst’s maintenance system is the cost-effective solution. The Trap Tender is the heart of this digestant treatment program that reduces the frequency of clogs and grease trap pump-outs. This system will provide better results at less cost than the local roofer and grease trap service.

Bio-Active is delivered into the drain line with a minimum of 172 ounces of fluid per dose. This means it attacks the full contents of the pipe, rather than just what has settled to the bottom of the pipe.

See the Difference...

A Biological Grease Trap Competitive Analysis

Simple and Effective Two-Part Maintenance System

1 The Trap Tender dispensing system is one of the smallest and easiest-to-use systems available today. This battery-operated dispenser is mounted up off the floor and may be installed in remote locations to treat drain lines as well as grease traps. Other features include:

- **Automatic dosing** — This prevents formation of solid organic material in grease traps, drain lines or septic systems.
- **Maximum dispersion** — A minimum of 172 ounces of fluid delivered per 2 ounce dose, which increases dispersion, contact and effectiveness in all applications.
- **Remote grease trap treatment** — Due to water flush capability, remote installation treats drain lines as well as traps.
- **Battery powered** — New electronic technology provides up to 3-year battery life.
- **Multiple event programming** — Programmable capability and multiple events option adapts to all conditions and drain systems.

Regular dosing of SOLID GREEN Bio-Active digestant can save many dollars worth of aggravation, inconvenience and service calls.

2 Sunburst Chemicals' SOLID GREEN Bio-Active is a biological detergent containing no enzymes. Bio-Active is a synergistic blend of bacteria spores that break down grease, fat, and other complex organic materials naturally.

Benefits of using Bio-Active include:

- **Consistent performance** — Bio-Active's solid composition is homogeneous and will not settle out like traditional liquids. Consistent dosing is achieved by the Trap Tender with programmable electronics.
- **Maximum bacterial activity** — This detergent has an indefinite shelf life and the bacteria will not degrade due to its solid composition — not the case with liquids. There is also no freeze/thaw issue when using or storing Bio-Active, making it easier to ship and store in colder climates. Bio-Active contains only bacterial active ingredients — no enzymes.
- **Safe to use** — Since it cannot be spilled, splashed or mixed by hand, Bio-Active reduces the potential risk of user contact, thereby reducing employer risk and exposure as well. This non-corrosive formulation will not harm plumbing, is non-pathogenic, salmonella free, and is USDA approved.
- **Reduces odors** — Regular treatment with Bio-Active controls odors by removing residual organic waste.
- **Reduces waste water surcharges** — Consistent treatment will reduce biological oxygen demand (BOD), chemical oxygen demand (COD) and total suspended solids (TSS).
- **Safe to the Environment** — The Bio-Active container is recyclable and there is no chemical residue left in the empty container. This effectively reduces refuse being dumped by 80%.

Green Healthcare / Lodging Program

Sunburst Chemicals offers a wide selection of solid detergent products for laundry, janitorial and housekeeping applications in Healthcare and Lodging facilities. Our solid detergents offer a complete solution for Healthcare and Lodging facilities. Solid detergents also offer the ultimate in handling convenience, safety and regulation of use.

Conserv Energy System™

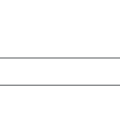

This program provides the best overall value by reducing energy requirements needed for cleaning — thereby reducing total overall laundry facility costs, without sacrificing quality.

Solid Laundry Detergent
CONSERV SG65 SOLID LAUNDRY DETERGENT
 High performance alkaline detergent that cleans in many water temperatures and has exceptional water conditioners environmentally safe.

Powerful Oxygenated Destainer for Colors & Whites
CONSERV SG55 COLOR SAFE BLEACH
 Safe bleaching booster for whiteness and stain removal

Solid Softener
CONSERV SG80 FABRIC SOFTENER
 Imparts softness from fabrics and also contains brighteners

Housekeeping

Sunburst products offer superior performance in removing soap scum, water spots and films.

Green Chemicals and Dispensers

Solid Green All Purpose #14

“Green” DfE All Purpose Cleaner/Degreaser

- Great for foam applications
- Leaves stainless steel shining, bright and film free
- Can be used on all surfaces
- Formulated with ingredients that are not harmful to the people who use it
- Contains no phosphorus, APEs, NPEs, solvents, VOCs, or corrosive caustic materials
- Rapidly biodegradable
- Yields 200-800 gallons per capsule
- Typically used with P4C4000 and R2U4000 dispensers. See page 18.

Pack Size: 1x4.5 lbs/case
Code: 6004S1

Solid Green Biological All Purpose Cleaner #24

Biological All-Purpose Cleaner

- Multi-purpose product for any surface not harmed by water
- Made exclusively with ingredients that are environmentally friendly
- Biological agents added to destroy odors and decompose soils after cleaning
- Contains No Phosphorus, VOCs, APEs Or Solvents
- Excellent cleaning performance in a wide variety of applications- auto scrubbers, trigger sprayers and wipes, foamy pressure wash or manual scrub
- Use to clean bathrooms, floors, counters
- Rinses easily and leaves no residue or film
- Typically used with P4C4000 and R2U4000 dispensers. See page 18.

Pack Size: 1x3.25 lbs/case
Code: 1624S1

Solid Green Bio-Active #22

“Green” Biological Treatment

- Great for use in septic tanks and drain fields
- Can be used in mopping applications in kitchens, restrooms and dock areas to breakdown organic material and for odor control
- Made with rapidly biodegradable materials
- Contains no phosphorus, APEs, NPEs, solvents, VOCs, or corrosive caustic materials
- Keeps drain lines free-flowing and grease traps functioning properly, reducing BODs, CODs and suspended solids
- Eliminates odors from drains and grease traps
- Yields 360-720 gallons per capsule
- U.S. Patent #6,150,316
- Typically used with TTB5000 and P4C4000 dispensers. See page 18.

Pack Size: 1x4 lbs/case
Code: 1622S1

Solid Green Biological Floor Cleaner #28

Biological Floor Cleaner

- Contains surfactants to suspend grease and oils
- Contains a combination of biological agents that continue to break down grease and oil after floors have been mopped
- Eliminates slippery floors and foul odors
- Contains no phosphate, VOCs and NPEs
- Rapidly biodegradable
- Mild pH
- Yields 260 - 520 gallons per capsule
- Typically used with P4C4000 and R2U4000 dispensers. See page 18.

Pack Size: 1x3.25 lbs/case
Code: 1040S1

Solid Green Rinse Aid #23

“Green” DfE Rinse Aid - Universal Product, high and low temp applications

- Can be used in low or high temp machines
- Reduces drying time and eliminates water spots
- Rapidly biodegradable
- Contains no phosphorus, VOCs, APEs, NPEs, or high pH materials
- Yields 3,900 (Low Temp) to 7,900 (High Temp) racks per capsule

Pack Size: 1x5 lbs/case
Code: 6832S1

Solid Green Silverware Presoak #34

“Green” DfE Silverware Presoak

- Removes tarnish and softens dried-on foods so they are effectively removed in the dish machine
- Mild to hands
- Economical to use
- Leaves tableware shining clean
- Contains no phosphorus, VOCs, APEs or NPEs
- Yields 880 gallons per capsule
- Typically used with P4C4000 and R2U4000 dispensers. See page 18.

Pack Size: 1x5.5 lbs/case
Code: 6590S1

Chemicals and Dispensers Continued

Solid Green Pot and Pan #40

“Green” DfE Dish/Pot & Pan Detergent

- High sudsing detergent for use in manual utensil washing operations
- Mild to skin
- Very effective in removing greasy soils from pots, pans and food preparation utensils
- Contains no harmful ingredients
- Rapidly biodegradable
- Contains no phosphorus, VOCs, NPEs or high pH corrosives
- Yields up to 2130 gallons per capsule
- Typically used with P4C4000 and R2U4000 dispensers. See page 18.

Pack Size: 1x4 lbs/case
Code: 6040S1

Solid Green Glass & Neutral Cleaner #78

“Green” DfE Glass and Neutral Cleaner

- Neutral pH, not acid, alkaline or corrosive
- Rapidly biodegradable
- Safe on all surfaces
- Will not leave streaks and film on glass, mirrors or windows
- Will not clog orifices in automatic scrubbers or pressure sprayers
- Ideal for use on waxed floors
- Contains no phosphates, VOCs, butyl, toxic ingredients
- Yields 200 - 400 gallons per capsule
- Typically used with P4C4000 and R2U4000 dispensers. See page 18.

Pack Size: 1x2.5 lbs/case
Code: 1122S1

Solid Green Aluminum Safe Dishwash #95

Aluminum Safe Dishwash Machine Detergent

- Will not discolor or corrode aluminum cookware on utensils
- Removes heaviest food soils from dishes, utensils and cookware
- Exclusive formulation prevents staining and films from forming on dishware
- Contains no phosphorus, VOCs, APEs, or NPEs
- Especially formulated for aluminum bakery pans

Pack Size: 4x8 lbs/case
Code: 61654

Solid Green Dish Machine Detergent #99

“Green” DfE Machine Detergent – use in soft water conditions for best results

- Designed to remove the heaviest food soils from dishes, utensils and cookware.
- Exclusive formulation prevents staining and films from forming on dishware
- Contains no phosphorus, VOCs, APEs, or NPEs
- For use in low-temp or high-temp machines
- Yields 650 (Low Temp) to 1300 (High Temp) racks per capsule

Pack Size: 4x8 lbs/case
Code: 61404

Compass

“Green” DfE Laundry Detergent – Non-Alkali with enzymes and color safe bleach

- Advanced laundry detergent innovation - washes in cold or warm water
- One-shot system - has the ingredients necessary to clean all textiles
- Highly active enzymes and oxygen bleach
- Special surfactants combine to clean tough stains by breaking apart soils
- Saves on utility costs, labor, equipment wear and textile replacement costs
- Each 5 lb. capsule yields approximately 80 (50 lb) loads
- U.S. Patent No. 5,830,839
- Typically used with MSL dispensers. See page 18.

Pack Size: 2x5 lbs/case
Code: 7866S2

Conserv SG55 Color Safe Bleach

Color Safe Bleach

- Enhanced oxygen system penetrates deep into fabric to lift and attack stains
- Promotes whiteness of whites and vibrant pastels with no harm to colored fabrics or the fiber itself
- Contains no phosphate, VOCs, chlorine or alkyl phenols
- Rapidly biodegradable
- Typically used with MSL dispensers. See page 20.

Pack Size: 2x5.5 lbs/case
Code: 7761S2

Conserv SG65 Laundry Detergent “Green” DfE Alkaline Built

- Super concentrated - powers out tough soils, odors and stains
- One shot laundry detergent
- Specially formulated to remove oily and greasy soils
- Used in all water conditions
- Safe to handle
- Requires substantially less inventory and storage space
- Contains no phosphate, VOCs, alkyl phenols (APEs, NPEs)
- Rapidly biodegradable, meets all standards for fast biodegradation rates
- Typically used with MSL dispensers. See page 18.

Pack Size: 2x6 lbs/case

Code: 7868S2

Conserv SG84 Iron Removing Sour Iron Removing Laundry Sour

- Helps eliminate dryer scorch and yellowing caused by iron in the water supply.
- Final rinse assures brilliant whites and colored linens
- Cannot be spilled or improperly used, creates a safer workplace
- Contains no phosphate, VOCs, alkyl phenols
- Rapidly biodegradable
- Typically used with MSL dispensers. See page 18.

Pack Size: 2x5, lbs/case

Code: 7945S2

Conserv SG80 Fabric Softener Laundry Fabric Softener

- Leaves fabrics soft and gentle to the touch
- Contains brighteners and antistatic agents to minimize static
- Aids in the speed and efficiency of dryers and ironers
- Solid form is convenient and safe to handle, with no chance of accidentally spilling on employees, linens, or equipment
- Contains no phosphate, VOCs, alkyl phenols
- Rapidly biodegradable
- Ingredients are made from renewable resources
- Typically used with MSL dispensers. See page 18.

Pack Size: 2x4 lbs/case

Code: 7924S2

Chemicals and Dispensers Continued

Sunburst Dispensers

R2U4000

Ready to Use Dispensing System

- Produces ready to use solution
- Concentrate for spray bottle fill
- Solution for mop bucket
- Detergent Solutions can be strengthened for cleaning tough soils
- Patent #5,478,537; #5,342,587; #5,846,499

TTB5000

Trap Tender

- For drain and grease trap treatment
- Automatic Dispensing
- Battery powered
- AC Adapter available DA0058
- Moisture and water resistant
- Easy programming
- Easy installation

P4C4000

Multi-Purpose Push-For-Concentrate Battery Operated Dispenser

- Battery Powered
- Moisture and water resistant
- Easy programming for push concentrate
- Easy Installation
- 2 and 10 minute lock out available
- AC adapter available DA0058

MSL

Modular Solid Laundry

- Made up of modules that work together as a single dispenser
- Offers both bowls and pumps to allow for solid and liquid laundry product use
- Custom Configurations are available for any combination of pumps and bowls up to a total of 6
- Stock dispensers include: MSL1020, MSL1021 and MSL1030

R2U6000

Ready to Use Dispensing System

- Produces ready to use solution
- Ideal for applications to fill 3-bin sinks, mop buckets, or auto scrubbers
- No power required
- Use solution simply by turning valve handle – no operator judgments

Warewash Detergent Bowl (WWD) Solid Detergent Bowl

- Allows free flow of product to reduce build up
- Used to feed encapsulated solid products
- Stock dispensers include: WWD100L, WWD140L, WWD150L

Warewash Rinse Bowl (WWR) Rinse Bowl

- Allows free flow of products to reduce build up
- Used to feed encapsulated solid products
- For use with Clarity and Solid Green 23 Rinse Aid

Sunburst Chemicals

Offering environmentally responsible solutions.

Leading the Way to Greener Cleaning

Sunburst Chemicals continues to be on the forefront of cleaning technology, and has been since we began producing solid detergents in the early 1980s. Solids' unique design not only saves on the environment, but also reduces energy consumption and increases workplace safety. With products that are DfE certified, as an active member of CleanGredients™, and using lean manufacturing practices, Sunburst Chemicals has the expertise and the products to deliver the best environmental solutions for your cleaning needs.

Solid detergents are safer, more reliable and the best environmental choice when compared to powder or liquid solutions.

Reduce & Recycle

When it comes to protecting the environment, Sunburst's solids offer many advantages:

- Solid technology leverages state-of-the-art surfactant technology — you get the best cleaning through a 100% concentrate.
- Solids' 100% concentrate reduces container size. Solids' containers use the least grams of plastic per volume of use solution in the industry.
- Empty means empty
 - No chemical residue left in the container to end up in landfills.
 - No rinsing required, so no wasted water and nothing down the drain.
- Containers are Class 2 recyclable.

Protecting our environment.

Saving Energy

Environmentally-responsible solutions must consider the complete picture, including operational efficiencies and energy usage. Sunburst solids offer energy savings by:

- Reducing fuel consumption for freight and delivery — solids take up less space, which requires fewer trucks to ship them.
- Reducing heat required for transport and storage, because solids will not freeze or thaw.
- Reducing operational utility costs through products, training, and consultations. This alone can save thousands of dollars.

Sunburst takes into consideration all angles of energy consumption and provides the best formulas for overall energy reduction with while maintaining quality cleaning results.

Increasing Health & Safety

Sunburst products and programs clean better and deliver quality results... and a cleaner facility is a safer one. Advantages of our products include:

- Solids in their natural state cannot be spilled, splashed or mixed by hand, which greatly reduces the risk of employee contact with chemical concentrates, helping employers maintain a healthier, safer workplace.

Sunburst Chemicals is a leader in green cleaning expertise by:

- Working with the EPA to develop Sunburst products with DfE certification
- Being an active member of CleanGredients™
- Practicing lean manufacturing

Who do you TRUST in your kitchen?

Other Foodservice Products

Phosphorus — harmful to ponds & lakes.

Trisodium NTA or nitrilotriacetic acid — potentially harmful to humans; a carcinogen.

NPE or nonyl-phenol ethoxylate — an aquatic toxin.

Sunburst Provides Total Value, Not Just Chemicals

Although chemical costs will typically be less than 1% of your total budget, the value of Sunburst’s “Total Approach” to its programs can help reduce costs in other areas. Adding value beyond the basics means that we are committed to our customers. We focus on your needs.

Overview of Typical Cleaning Costs

Chemicals are only a small part — there’s more to consider.

Reducing Overall Cleaning Costs

Sunburst reviews all of our customers’ operations. There is more to consider than chemistry alone... A total top-to-bottom review of a customer’s operation can help to achieve a total value solution.

Chemical cost is small compared to the total cost of sanitation. By providing a “total approach” to each customer’s operation, things like labor, utility costs, repairs, and injuries can be greatly reduced. Sunburst adds value for our customers by understanding key elements of their operation which allows us to reduce total operating costs.

Our goal is to reduce total operational costs.

Solid Green Food Service Program

Education / Restaurants / Healthcare

In addition to being environmentally responsible, Sunburst Chemicals' solid detergent program meets the sanitation demands of the food service industry with ease of use, through accurate control, and by keeping overhead low.

The Right Dispensers to Complete the Solution

When determining the best cleaning solution, there's more to consider than just products. Dispensing options and combinations of products are critical parts of the equation to provide the best complete solution. Sunburst offers a variety of dispensers and will recommend products that work well together to meet your specific application requirements.

Ultima Program

Consistent Quality and is Easy on the Environment

Features and Benefits to the Ultima Product Line

Sunburst Chemicals has developed this program with many compelling benefits that contribute to superior performance, excellent value and ultimate convenience.

Packaging Reduces Landfill Waste

- 2/1 gal versus 5 gal. pail reduces plastic waste 75%
- 2/.5 gal versus 4/1 gal pack reduces plastic 58%

Employee Safety

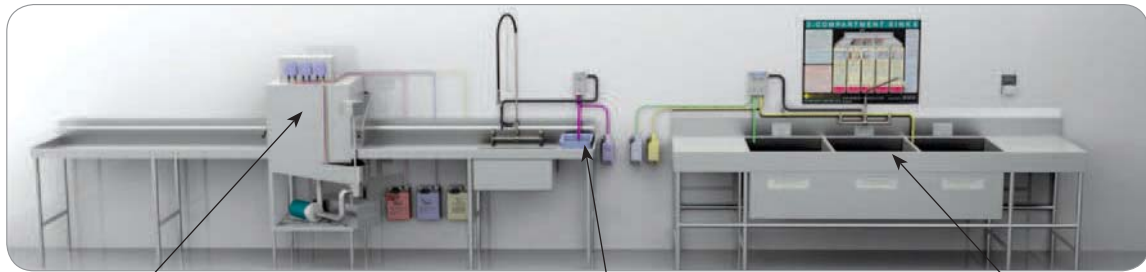

- Color Coded to ensure proper product usage
- Closed Loop System keeps employees away from chemical contact by avoiding mixing of incompatible chemicals.
- Eliminates possible injury from lifting heavy 5 gallon pails
- Eliminates possible injuries from slips and falls

Concentrated Formula Lowers use of Natural Resources; Water

- 2/1 gal saves 60% water compared to 5 gal pail
- 2/.5 gal pack saves 75% of water used in production of traditional 4/1 gal. pack.

Smaller Pack Size

- Saves Energy, more cases can be shipped on trucks reducing diesel fuel consumption
- Improves inventory space issues, less shelf space required
- Takes pails off the floor to ease mopping under drain tables
- Jug inserts prevent spilling or 'Glug, Glug' waste of product

Solid Performance

Universal product, high and low temp applications and all water conditions

- No inert ingredients added
- Designed for use in any low-temp or high temp machine
- Contains defoaming surfactant that enhances cleaning and significantly improves mechanical action in any dishwasher
- Results in clear, spot free dishware
- Removes heavy food soils fast and effectively. Strips stains off dishes and cuts coffee stains on contact.
- Safe and economical to use

Pack Size: 4x8 lbs/case

Code: 61494

Applause

Low alkalinity, high water conditioning for poor water conditions

- Highly effective in hard water conditions
- Powers out soils
- Specially formulated to remove the heaviest food soils from dishes, utensils, and cookware leaving dishes film free and spotless
- Suitable in high and low temp machines

Pack Size: 4x8 lbs/case

Code: 61354

Solid Green Dish Machine Detergent #99

“Green” DfE - use in soft water conditions

- Designed to remove the heaviest soils from dishes, utensils and cookware
- Exclusive formulation prevents staining and films from forming on dishware
- Contains no phosphorus, VOCs, APEs, or NPEs
- For use in low-temp or high-temp machines
- Yields 650 (Low Temp) to 1300 (High Temp) racks per capsule

Pack Size: 4x8 lbs/case

Code: 61404

Encore

Aluminum safe, defoamed

- No inert fillers added
- The most effective product available for aluminum bakery pans
- Specially formulated to remove the heaviest food soils from dishes, utensils, and cookware
- Super concentrated, defoamed formula provides low use cost & excellent results

Pack Size: 4x8 lbs/case

Code: 6160S4

www.sunburstchemicals.com

Selection Guides, Chemicals and Dispensers Continued

Solid Green Aluminum Safe Dishwash #95

“Green” DfE - Aluminum safe, defoamed

- Will not Discolor or corrode aluminum cookware on utensils
- Removes heaviest food soils from dishes, utensils and cookware
- Exclusive formulation prevents staining and films from forming on dishware
- Contains no phosphorus, VOCs, APEs, or NPEs
- Especially formulated for aluminum bakery pans

Pack Size: 4x8 lbs/case

Code: 61654

Concert

Encapsulated - for economical/bid use

- 100% active raw materials - No water present
- Specially formulated to remove the heaviest food soils from dishes, utensils, and cookware
- Chlorine controls filming & cuts coffee stains on contact
- Designed for use in any low-temp or high-temp machine
- Built in defoamer ensures optimal results

Pack Size: 4-6 lbs/case

Code: 6148S4

Hi Lite

Chlorinated Automatic Dishwash - for home style dishmachines

- Concentrated all-purpose detergent for dish and glassware washing in under counter dishwashers
- Defoamed for maximizing the effectiveness of the dishwasher
- Breaks down stubborn food soils, grease and oils
- Aluminum safe
- Helps control water hardness and promotes free rinsing

Pack Size: 4x5 lbs

Code: 62804

Tempest Shield

Powder for Panwashers

- Chlorinated- aids in cleaning and removing difficult protein soils
- Aluminum safe
- Non-caustic, non-corrosive
- Effective against heavy grease and crusted food residue
- Balanced low sudsing, free rinsing automatic panwash compound

Pack Size: 25 lb, 100 lb

Code: 687125, 6871100

Crystal

Automatic Glass Wash

- Designed for automatic dishmachines & under-bar mechanical bar glass washers
- Economical to use, liquid for accurate dispensing
- Leaves dishes and glasses sparkling clean and “crystal” clear
- Excellent hard water tolerance
- Compatible with Bock, Sunsan 2 or Sunbrite for sanitizing in the final rinse
- Non-phosphate

Pack Size: 4x1 gal

Code: 60034

Result 100

Universal product, high and low temp applications and all water conditions

- For use in low or high temp dishmachines
- Economical to use - with excellent results
- Power off soils in all water conditions
- Automatically dispensed
- Excellent hard water tolerance
- Non-phosphate

Pack Size: 4x1 gal, 5 gal

Code: 620201, 620205

Result CD

Chlorinated

- Chlorinated alkaline liquid for high temp machines
- Extra stain removal
- Low or high temp dishmachines

Pack Size: 4x1 gal, 5 gal

Code: 624501, 624505

Result Shield D

Aluminum safe, defoamed

- Formulated for automatic bakery pan washers
- Aluminum safe- will not harm pots, pans, mixing bowls or trays
- Contains water conditioners, to prevent scale buildup in the panwasher
- Maximum cleaning efficiency with extremely low use levels
- USDA approved

Pack Size: 4x1 gal, 5 gal

Code: 624501, 624505

Ultima Result

Super Concentrate in 1 gal closed loop F-Style - low and high temp

- Designed for low and high temperature automatic dish machines and under-bar mechanical bar glass washers
- Highly concentrated, economical to use
- Water conditioners prevent lime scale build up on machines
- Contains no phosphates
- Leaves dishes and glasses sparkling clean and crystal clear
- Removes film, residue and water spots
- Excellent hard water tolerance

Pack Size: 2x1 gal

Code: 6027F1

Clarity

Universal product, high and low temp applications

- Eliminates water spots
- Reduces drying time for dishes
- 100% active raw materials - no water or fillers added
- Effective in all water conditions
- For use in either high or low temperature dish machines
- Safe, convenient and controlled use
- Non corrosive- will not harm dishmachine parts or plumbing

Pack Size: 1-5 lbs/case
Code: 6827S1

TD360

For high TDS water conditions

- Liquid dishmachine drying agent
- Designed for use in areas with hard water and high dissolved solids in their facilities' water supply
- Formulated for low & high temperature machines
- Effective in all water conditions, especially formulated for hard water with high dissolved solids
- Fast acting sheeting action
- Leaves glassware spot-free, clear and film-free
- Plastic and metal surfaces dry spotless in seconds
- Non-phosphate

Pack Size: 2x1 gal
Code: 6810X2

Solid Green #23 Rinse Aid

“Green” DfE Universal product, high-end low-temp applications

- Can be used in low or high temp machines
- Reduces drying time and eliminates water spots
- Rapidly biodegradable
- Contains no phosphorus, VOCs, APEs, NPEs, or high pH materials
- Yields 3,900 (Low Temp) to 7,900 (High Temp) racks per capsule

Pack Size: 1-5 lbs/case
Code: 6832S1

Ultima Sparkle

Super Concentrate in 1 gal closed loop F-Style - low & high temp

- Contains concentrated drying agents to make clean dishes dry faster
- High concentration means lower use cost
- Injected in the final rinse of either high or low temp dishmachines
- Leaves dishes spotless & film free
- Contains special ingredients that gives excellent results even in the toughest hard water conditions
- Contains no phosphates
- Reduces lime scale build-up

Pack Size: 2x1 gal
Code: 6836F1

Sparkle

Premium Additive for poor water conditions

- Contains concentrated drying agents
- Injected in the final rinse of either high or low temp dishmachines
- Leaves dishes spotless & film free
- Excellent results in the toughest water conditions
- Non-Phosphate

Pack Size: 4x1 gal, 5 gal
Code: 68234, 68235

XP Sunshine

Universal product, high and low temp applications

- Formulated for low & high temperature machines
- Effective in all water conditions
- Fast acting sheet action
- Leaves glassware clear and film free
- Plastic and metal surfaces dry spotless in seconds

Pack Size: 4x1 gal case, 5 gal pail
Code: 683501, 683505

Iodine Sanitizer

- Iodine based sanitizer for dishes, glasses, utensils
- Low foaming for use in automatic bar glass washers
- Reduces spotting and filming of glassware, contains a rinse additive agent
- EPA registered as a sanitizer

Pack Size: 4x1 gal

Code: 54004

Sun Brite

5.25% Chlorine, (Sodium Hypochlorite) - 5 gal only

- Low temperature dish machine and glass washer sanitizer
- Sanitizes food contact surfaces
- Efficient fast acting results
- Economical to use
- Removes stains- coffee, tea, wine, protein and many others
- Eliminates odor
- Non-Phosphate
- EPA registered

Pack Size: 5 gal

Code: 590005

Sunsan 2

5.25% Chlorine, (Sodium Hypochlorite) - 4x1 gal only

- Low temperature dish machine and glass washer sanitizer
- Sanitizes food contact surfaces
- Removes stains from dishes, utensils
- Efficient fast acting results
- Economical to use
- Non-Phosphate
- EPA registered

Pack Size: 4x1 gal

Code: 55004

Ultima Chlorbrite

10% Chlorine, (Sodium Hypochlorite) in 1 gal closed loop F-Style

- Low temperature dish machine sanitizer
- Sanitizes food contact surfaces
- Efficient fast acting results
- Economical to use
- Non-Phosphate
- EPA registered

Pack Size: 2x1 gal

Code: 7762F1

Lime Be Gone

Economy - contains hydrochloric acid

- Phosphoric / hydrochloric blend acid cleaner
- Highly concentrated
- Contains surfactants to penetrate lime scale rapidly
- Used to remove all types of mineral and scale deposits
- Effective for removing lime films and build ups in dishwashers and steam tables
- Can be used to clean food processing equipment, sinks, toilets, ceramic tile and grout (not for use on formica counters)
- Great rust remover

Pack Size: 4x1 gal

Code: 663001

Lime Out

Convenient to use packets

- Effective on stainless steel, ceramic and glass
- Super concentrated ingredients and penetrating agents provide maximum effectiveness
- Breaks down hard water scale on contact
- Safe to use on stainless steel- contains no muriatic hydrochloric or sulfuric acid
- Continued regular use helps your dishwasher, steam table, coffee maker and ice machine perform at maximum efficiency
- Non-foaming, no sharp odors or fumes

Pack Size: 4x1 lb pouch

Code: 663210

Lime Remover Plus

Blend of acids, safer on soft metals

- Effective on stainless steel, ceramic, glass and plastic
- Super concentrated ingredients and penetrating agents provide maximum effectiveness
- Breaks down hard water scale on contact
- Safe to use on stainless steel- contains no muriatic, hydrochloric or sulfuric acid
- Continued regular use helps your dishwasher, steam table, coffee maker, and ice machine perform at maximum efficiency (not for use on Formica counters)
- Non-foaming, no sharp odors or fumes

Delite

Pink -Lower cost, better performance

- Convenient and effective manual warewashing detergent
- Specially formulated to remove greasy soils on contact
- High sudsing, mild to hands
- Unique dispensing system eliminates over use
- Store in 1/4 the space of liquid detergents
- One capsule yields approximately 1,800 gallons use solution

Pack Size: 1- 4 lbs/case
Code: 6045S1

- Contains no phosphorus, VOCs, NPEs or high pH corrosives
- Yields up to 2130 gallons per capsule

Pack Size: 1- 4 lbs/case
Code: 6040S1

Shamrock

- 100% active raw materials- no water or fillers added
- Specially formulated to remove greasy soils on contact
- High sudsing, mild to hands
- Unique dispensing system eliminates over use
- Store in 1/4 the space as liquid detergents
- One capsule yields approximately 2130 gallons use solution

Pack Size: 1- 4 lbs/case
Code: 6010S1

Burst

Blue, most cost effective

- High sudsing, economical manual dish washing detergent
- Wetting agents to penetrate soils
- Great for removing greasy soils from dishes, pots, pans, utensils
- Foam builders and stabilizers
- Mild on skin

Pack Size: 4x1 gal, 5 gal
Code: 681501, 681505

Solid Green Pot & Pan #40

“Green” DfE

- High sudsing detergent for use in manual utensil washing operations
- Mild to skin
- Very effective in removing greasy soils from pots, pans and food preparation utensils
- Contains no harmful ingredients
- Rapidly biodegradable

Dura Suds

Pink

- Wetting agents
- Emulsifiers
- Foam builders
- Skin conditioners and emollients

Pack Size: 2x1 gal, 5 gal
Code: 6002X2, 600205

Lemon Suds

In quarts only

- Super Concentrated
- Wetting Agents
- Emulsifiers
- High Sudsing
- Skin conditioners & emollients

Pack Size: 6x32 oz

Code: 6007X6

Lo Foam

Glass cleaner - for manual brush type glass washing

- Removes spots, films, greasy soils, lipstick, and fruit pulp from glasses
- Free rinsing for crystal clear results
- Mild on hands
- For use in all water conditions

Pack Size: 4x1 gal

Code: 63804

Preem

Premium - often used with proportioners

- Richer thicker suds last longer- saves both time and money
- Cuts heavy baked on soil and grease on contact
- Formulated to be mild on hands
- Developed for hard or soft water usage
- Phosphate free

Pack Size: 2x1 gal, 5 gal

Code: 6001X2, 60015

Ultima Pot & Pan

Super concentrate in 1/2 gallon closed loop F-Style

- Richer, thicker suds last longer- saves both time and money
- Cuts heavy, dried on soil and grease on contact
- Highly concentrated, economical to use
- Formulated to be mild on hands
- Developed for use in hard or soft water
- Non-Phosphate

Pack Size: 2x64 oz.

Code: 6140F2

Sentry

No-rinse Quat Sanitizer

- Unique solid form makes it safe and easy to use
 - No rinsing required after application
 - Highly effective quaternary ammonium chloride sanitizer
 - Effective in hard water conditions up to 750 ppm
 - One 3 pound capsule makes over 750 gallons of sanitizing solution
 - Non-Phosphate
 - US Patents # 6,518,313 B1
- Pack Size: 1-3 lbs/case
Code: 5120S1

Sanigize

No-rinse Quat Sanitizer - 14%, also a disinfectant at higher concentrations, not registered in all states

- Broad spectrum quat sanitizer
 - Effective against many types of bacteria, viral and fungal agents
 - Highly concentrated for economical use
 - Blue color indicates proper dilution for use
- Pack Size: 2x1 gal
Code: 5144X2

Quick San 10

No-rinse Quat Sanitizer - 10%, may also be used as a laundry sanitizer/mildewstat, also a disinfectant at higher concentrations

- Broad spectrum disinfectant
 - Food contact surface sanitizer
 - Quat no rinse sanitizer for hard surfaces
 - Non-phosphate
 - Can be used to inhibit growth and mildew on table linens
- Pack Size: 2x1 gal, 4x1 gal, 5 gal
Code: 5875X2, 587501, 587505

Ultima Quick San 10

No-rinse Quat Sanitizer in 1/2 gal closed loop F-Style

- Broad spectrum disinfectant
 - Disinfects, cleans and deodorizes in one easy step
 - Food contact surface sanitizer
 - Quat no rinse sanitizer for hard surfaces
- Pack Size: 2x64 oz
Code: 5875F2

Sunburst No Bac

May be used as a no-rinse sanitizer OR as a disinfectant cleaner

- Multi purpose quat sanitizer
 - Disinfects, cleans and deodorizes in one easy step
 - No Rinse required on food contact surfaces
 - Non-phosphate
- Pack Size: 4x1 gal
Code: 520001

Beacon Silverware

- 100% active raw materials -no water or fillers added
 - Specially formulated to prepare tableware for spotless, one pass dish washing
 - Safe, convenient and controlled use
 - Effective, yet mild to hands
 - Concentrated formula removes tarnish and stubborn dried on foods
 - One capsule yields approximately 760 gallons use solution
 - Pleasant Scent
 - Excellent performance in all water conditions
- Pack Size: 1 x 4.75 lbs/case
Code: 6015S1

Stain-A-Way Plus Food and Beverage Stain Remover

- Removes food and beverage stains from dishes, cups and utensils
 - Will take stains out of plastic cups that chlorine bleach won't
 - Color safe, will not discolor dishes
 - Contains the maximum amount of active ingredients possible for effective use cost
 - Will not corrode metals
 - Contains oxygen bleach
- Pack Size: 2 x 3 lbs
Code: 6865S2

Solid Green Silverware Presoak #34 "Green" DfE Silverware

- Removes tarnish and softens dried-on foods so they are effectively removed in the dish machine
 - Mild to hands
 - Economical to use
 - Leaves tableware shining clean
 - Contains no phosphorus, VOCs, APEs or NPEs
 - Recognized by the EPA's Design for Environment program criteria
 - Yields 880 gallons per capsule
- Pack Size: 1 x 5.5 lbs/case
Code: 6590S1

Liquid Silverware Presoak Silverware

- Prepares tableware for spotless one-pass washing
 - Safe, convenient and controlled use
 - Effective, yet mild to hands
 - Concentrated formula removes tarnish & stubborn, dried on foods
 - Recommended for true silver utensils, as it is non destructive to silver plates
- Pack Size: 4 x 1 gal
Code: 65704

Powdered Silverware Presoak Silverware

- Prepares tableware for spotless one-pass washing
 - Enzyme action breaks up good soils for better cleaning
 - Recommended for true silver utensils as it is non-destructive to silver plate
 - Safe, convenient and controlled use
 - Effective, yet mild to hands
 - Concentrated formula removes tarnish & stubborn, dried on foods
- Pack Size: 2 x 3.5 lbs
Code: 6580S2

Ultima Pre-soak Super Concentrated for Silverware in 1/2 gal closed loop F-Style

- Prepares tableware for spotless one-pass washing
 - Safe, convenient and controlled use
 - Enzyme action breaks up food soils for easy removal
 - Effective, yet mild to hands
 - Concentrated formula removed tarnish and stubborn, dried on-foods
 - Recommended for true silver utensils, as it is non destructive to silver plates
- Pack Size: 2 x 64 oz.
Code: 6027F2

Score

All Purpose Degreaser - Orange

- 100% active materials- no water or fillers added
 - Heavy duty surfactants, oil & grease removers, food soil detergent and water conditioning agents lift soils and leave surfaces shining clean
 - Rinses easily and leaves no residue or film
 - Non-caustic, non-corrosive; very safe to use
 - Great for spray on foam cleaning applications
 - Excellent cleaning performance in a wide variety of applications- floors, auto-scrubbers, spray, foamy pressure wash or manual scrub
 - Unique solid system saves space, eliminates container handling and disposal problems; accurate dispensing reduced use costs
 - Each capsule yields 180-720 gallons of use solution
- Pack Size: 1- 5 lbs/case
Code: 6000S1

Solid Green Biological Floor Cleaner #28

Biological Floor Cleaner

- Contains surfactants to suspend grease and oils
 - Contains a combination of biological agents that continue to break down grease and oil after floors have been mopped
 - Eliminates slippery floors and foul odors
 - Contains no phosphate, VOCs and NPEs
 - Rapidly biodegradable
 - Mild pH
 - Yields 260 - 520 gallons per capsule
- Pack Size: 1x3.25 lbs
Code: 1040S1

Solid Green All Purpose #14

Green "DfE" All Purpose

- Great for foam applications
 - Leaves stainless steel shining, bright and film free
 - Can be used on all surfaces
 - Formulated with ingredients that are not harmful to the people who use it
 - Contains no phosphorus, APEs, NPEs, solvents, VOCs, or corrosive caustic materials
 - Rapidly biodegradable
 - Yields 200-800 gallons per capsule
- Pack Size: 1x4.5 lb
Code: 6004S1

636 Odorless Degreaser

Heavy Duty Odorless Degreaser - non butyl

- Contains no butyl
 - Odorless cleaning even on hot surfaces
 - Very effective for all applications: carbon, floors, grills, hoods
 - Unique blend of alkalis, surfactants and safe solvents
 - Effective yet easy-to-use degreaser
- Pack Size: 4 x 1 gal
Code: 410001

Brute

Multi-Purpose Cleaner - Neutral

- Floors, walls, terazzo and quarry tile
- Fast acting, free rinsing
- Eliminates the hazard of slippery floors
- Leaves surface clean and film free
- Safe to use on painted walls
- Picks up grease and cleans out grout
- Highly concentrated non-alkaline, mild to skin
- Economical, low use cost

Pack Size:: 4x1 gal

Code: 10004

Cut

All Purpose Degreaser - orange

- Mild and non-caustic
- High concentration of surfactants and sequestering agents
- Power packed foam clings to vertical surfaces
- Free-rinsing
- Emulsifies heavy loads of unburned grease and oil without the hazard of caustic materials
- Removes grease with no additional scrubbing

Pack Size: 4x1 gal

Code: 610501

Effecto

Multi-Purpose Degreaser and Spot Remover - good on oil/grease

- Primary used for cleaning floors, walls and above floor cleaning to remove motor oil and grease
- Special free-rinsing degreaser
- Rinses quickly and easily leaving no residue or film
- Used wherever grease is a problem

Pack Size: 2x1 gal

Code: 6115X2

HD Kitchen Degreaser

Heavy Duty - economy, alkaline

- Cleans grills, hoods, walls and floors
- Versatile all-purpose degreaser
- Dissolves heavy kitchen deposits and burned-on grease on contact
- Economical, low-use cost
- Non-phosphate

Pack Size: 4x1 gal

Code: 61104

Hoodwash

Vent Hood Cleaner for automatic hood wash systems

- Especially designed for automatic hood cleaning apparatus
- Leaves hoods shining bright and clean for maximum efficiency
- Non-corrosive formula is safe to use on all surfaces
- Easy to use, simply fill dispenser reservoir
- Removes greasy soils from vent hoods
- Removes heavy grease and prevents plugging of drain lines

Pack Size: 4x1 gal

Code: 642801

Time Saver

Biological Floor Cleaner

- Bacterial action breaks down grease & oil for more effective removal by mopping
- Deep-cleans floors and grout by removing the grease and grime that collects in the pores of the floor surface
- Eliminates the greasy floor film that causes floors to be slippery
- Improves freshness by controlling odors from residual organics packed into irregular floor surfaces and grout
- Eliminates the need for rinsing after mopping
- Degrades residual organic soils that help support insects and other unwanted pests
- Formulated with environmentally friendly ingredients

Pack Size: 2x1 gal

Code: 1030X2

Grease Trap and Drain Treatment

Biozyme

Biological Treatment

- Bacteria spores digest materials that clog grease traps and drains and reduce B.O.D.'s, C.O.D.'s and suspended solids.
- Unlike liquid drain products, Biozyme delivers a consistent shot of bacterial spores with each injection through its unique solid dispenser
- Regular treatment controls odor, prevents troublesome drain blockage and expensive grease trap pumping costs.
- Highest concentration of biological available today for automatic inject systems with 27 billion CFU's per ounce of Biozyme.
- As a true bacterial based product, the by-products of digestion are water and carbon dioxide - which means no negative effects on drain lines further down the line.
- Does not contain free enzymes
- Patent # 6,150,316

Pack Size: 1 x 4.5 lbs/case
Code: 1620S1

Vital

Bio Active Cleaner/Deodorant/Digestant

- Restroom hard surface and bowl cleaner that cleans and deodorizes with long lasting biological based chemistry
- Pleasant scent eliminates foul smelling odors
- Regular addition to drains prevents sludge accumulation throughout drain system
- Non-harmful bacteria suspension that keeps drains open
- Helps liquefy septic tank and drain field solids

Pack Size: 12- 1 quart case, 4x1 gal, 5 gal
Code: 162512, 162501, 162505

See the Trap Tender Program on pages 12-13.

Solid Green Bio-Active #22

"Green" Biological Treatment

- Great for use in septic tanks and drain fields
- Can be used in mopping applications in kitchens, restrooms and dock areas to breakdown organic material and for odor control
- Made with all rapidly biodegradable materials
- Contains no phosphate, volatile organic compounds, NPEs, or pH contributors
- Bacterial sources are not harmful to humans or animals
- Keeps drain lines free-flowing and grease traps functioning properly, reducing BODs, CODs and suspended solids
- Eliminates odors from drains and grease traps
- Yields 360 - 720 gallons per capsule
- U.S. Patent # 6,150,316

Pack Size: 1x4 lbs/case
Code: 1622S1

Grease Release

Heavy Duty Degreaser - grills, fryers, ovens, hoods, etc

- 100% active raw materials- no water or fillers added
- Specially formulated for cleaning the toughest grease related soils in the following applications: carbon, floors, grills, hoods
- Unique blend of alkalis, surfactants and solvents to create an effective, easy-to-use degreaser
- Much less hazardous to handle than liquid degreasers
- Non-phosphate
- Each capsule yields 128-640 gallons of use solution

Pack Size: 1-5 lbs/case

Code: 6030S1

Boil-Out

Boil Out Compound - for deep fryers, in convenient to use packets

- Designed for a one-pouch use to boil-out greasy kitchen fryers and remove burned on grease and varnish from grills
- Heavy duty cleaning and degreasing
- Excellent cleaning results
- Low use concentrations
- Less hazardous to use than liquids or drums of powders

Pack Size: 8 x 1/2 pouch

Code: 482505

Restore 77

Boil Out Compound - for deep fryers

- Heavy duty cleaning and degreasing
- Excellent cleaning results
- Low use concentrations
- For use in fryers
- Penetrates greasy, carbonized soils, effectively removing them from exchange tubes, overhead ovens, drain chains, conveyors and other problem areas.

Pack Size: 2 x 4.5 lbs/case

Code: 4820S2

Attack

Cling Degreaser - ready to use spray bottles

- Ovens, hoods, filters, grills
- Clings to vertical surfaces
- Increased contact time means less scrubbing and scraping
- Super high alkalinity
- Burned on grease and varnish are dissolved and can be wiped away with ease
- Non-phosphate

Pack Size: 4 x 32 oz

Code: 610032

www.sunburstchemicals.com

Selection Guides, Chemicals and Dispensers Continued

Challenge

Heavy Duty Degreaser - grills, fryers, ovens, hoods, etc

- Grills, fryers, ovens, hoods
- Powerful degreasing action works where regular degreasers fail
- Penetrates heavy soils for easy removal
- Cleans grills in one application
- Provides complete degreasing of most surfaces
- For use on baked on grease and encrusted carbon
- Non-phosphate

Pack Size: 4 x 1 gal, 5 gal pail
Code: 611801, 611805

Guard

Aluminum Safe Degreaser

- Heat exchangers and coils
- Aluminum cookware
- Ovens & hoods
- Refrigeration units, air cleaners
- Ideally used with pressure washing equipment
- Non-phosphate

Pack Size: 4 x 1 gal
Code: 486101

Hoodwash 090

Air Purification Equipment Degreaser

- Designed for electronic air purifying unit, industrial size with automatic cleaning cycles
- Effectively removes soil that reduce electrostatic charge effectiveness
- Restores maximum air purification efficiency to unit
- Completely safe and non-corrosive to all metals
- Non-phosphate

Pack Size: 5 gal
Code: 642605

Smokehouse Cleaner

Heavy Duty Detergent/Degreaser

- Detergent for the Removal of grease, oil and smoke film from meat smoking operations
- Can be applied by spraying, scrubbing or mopping followed by a thorough rinse with water
- Works well when applied through the chemical injectors of pressure washers

Pack Size: 4x1 gal
Code: 49204

Quickway

Aerosol Foaming Oven/Hood Cleaner

- Fast grease cutting action
- Cleans warm or cold ovens
- Ideal for cleaning ovens, grills, hoods, boilers, rotisseries, drip pans and stainless steel.
- Pleasant and easy to use
- Cleans surfaces to a bright luster

Pack Size: 12 - 17.5 oz cans/case
Code: 118012

Pink Hand Soap

- Conditions skin as it cleans
- Pleasant almond fragrance
- Economical, low use-cost
- For use in hard or soft water

Pack Size: 4 x 1 gal

Code: 30004

Prestige

Antibacterial Hand Cleaner

- E2 antibacterial hand soap
- For use by health care personnel and patients, food service and industrial personnel
- Mild, non-irritating
- Germ fighting formulation

Pack Size: 2 x 1 gal

Code: 3350X2

Sundrops #75

Instant Hand Sanitizer - alcohol based

- Kills the most common bacteria upon contact
- Formulated to reduce the number of microorganisms that can cause infection and illness
- Contains 60% ethyl alcohol, an effective germicide that evaporates leaving hands sanitized and feeling fresh
- Balanced formula- use frequently to kill bacteria, yet gentle to skin
- Use on clean, non-soiled hands anytime where rinsing with water is not available.

Pack Size: 12 x 8 oz., 8 x 1000 mL

Code: 3539375, 3539785

Sundrops #57

Lotion Hand Soap - Green Seal certified

- Reduces usage as much as 50% for each hand wash
- Thick, rich foam encourages frequent use
- Cleans and moisturizes
- Biodegradable, environmentally safe
- Mild floral fragrance appealing, not overpowering
- Balanced formula, use frequently to keep hands clean yet gentle to the skin

Pack Size: 8 x 1000 mL

Code: 3539715

Sundrops #67

Antibacterial Hand Soap

- Reduces usage as much as 50% for each hand wash
- Thick, rich foam encourages frequent use
- Cleans and moisturizes
- Biodegradable-environmentally safe
- Mild floral fragrance-appealing, not overpowering
- Balanced formula-use frequently to cleanse, yet gentle to skin

Pack Size: 8 x 1000 mL

Code: 3536708

Sundrops #73

Instant Hand Sanitizer - alcohol based

- One-step foaming alcohol instant hand sanitizer that is dispensed as a rich, heavy foam directly into the hands
- Requires no rinsing to clean hands free of germs and prevents their transfer
- Does not easily run off the hands and drip on the floor
- Highly effective against a variety of microorganisms
- Contains 65% ethyl alcohol, an effective germicide that evaporates, leaving hands sanitized and feeling fresh

Pack Size: 6 x 500 mL, 8x1000 mL

Code: 353700, 353750

CD Pro

Chlorinated Degreaser - typically used with MasterBlaster dispenser

- Heavy duty, high foaming chlorinated alkaline detergent readily removes greasy, oily food-type soils
- Power packed foam eliminates manual scrubbing and scraping
- Designed to be used through an automatic dispensing system
- Solid product has 100% cleaning ingredients. No water or filler means very low use cost
- Chlorine cuts through protein soils and removes blue films
- Sequestering agents soften water, prevent lime build-up, white films and water spots
- Safe around personnel, concentrate cannot spill or cause injury, burns or eye damage

Pack Size: 2 x 4.5 gal
Code: 6012S2

Conveyor Lube

Detergent Lubricant - typically used on tray conveyors

- Dilutable water soluble lubricant to make chain and belt conveyors run smoothly
- Typically used through an automatic dispensing system
- Prevents binding of links and rollers
- Cleans as it lubricates
- Resistant for hard water fouling of nozzles
- Prevents spray nozzles from plugging
- Highly concentrated
- Economical, low use cost
- Non-phosphate

Pack Size: 5 gal pail
Code: 682505

Bulls Eye

Chlorinated Degreaser - typically used in food processing plant applications

- Heavy duty, high foaming chlorinated alkaline cleaner
- Power packed foam eliminates scrubbing and scraping
- Degreasing of floors, walls and equipment
- High concentration means lower use cost
- Chlorine cuts through protein soils and removes blue films
- Sequestering agents soften water, prevent lime build-up
- Non-phosphate
- USDA registered

Pack Size: 4 x 1 gal, 55 gal drum
Code: 102901 102955

CBW

Chlorinated Cleaner - typically used as a cutting board cleaner

- Designed to restore gray or brown stained or discolored cutting boards to like-new condition
- Power packed formula makes restoring cutting boards effortless
- Helps lengthen the life of expensive cutting boards
- Thick gel formula helps keep the product on the surface of the cutting board- it will not run or drip off
- Non-phosphate

Pack Size: 2 x 1 gal
Code: 4500X2

Defoamer

Defoamer

- Used on automated warewash and panwash machines
- Effectively solves any foam problems
- For use on foam caused by:
 - Vegetable starch
 - Animal fats and proteins
 - Soap and detergents
- Can be used in pickup side of floor autoscrubbers to kill foam

Pack Size: 4x1 gal
Code: 463601

Final Touch

Spot & Film Remover - typically used with final rinse in food plant cleaning applications

- Removes hard water spots left on equipment after cleaning
- Removes mineral spots, streaks and film left by water and detergent solutions after cleaning
- Shines dull equipment
- Dissolves lime scale build-up
- Eliminates the need for oiling stainless steel to make it look shiny new
- Prevents further spots and films from forming

Pack Size: 55 gal drum
Code: 661055

Foamy Red Baron

Non-caustic, high foaming, emulsifying

- Safe for all surfaces
- Low use cost when applied with foam generating equipment
- Non-caustic, non-alkaline for safe handling
- Removes grease, proteins, sugars and starches

Pack Size: 55 gal drum
Code: 102555

Food Grade Lubricant

Mineral Oil Lubricant - used on equipment in food processing applications

- Easy to use mineral oil
- Lubricates and protects saws, grinders, slicers, and other food handling equipment which comes in contact with food
- Helps prevent rust when applied to metal surfaces
- Approved for direct food contact

Pack Size: 4 x 32 oz.
Code: 682632

Freezer Floor Cleaner

Freezer Cleaner - works down to -20°F

- Removes soils down to -20 degrees below zero
- Melts ice build-up
- Not flammable
- Removes grease, food soils and black tire marks.

Pack Size: 4 x 1 gal
Code: 69054

So Easy

Stainless Steel & Hard Surface Polish -ready to use, trigger spray heads included

- Polish for chrome, stainless steel, formica, vinyl or other hard surfaces
- Leaves surfaces water resistant
- Leaves surfaces dust free
- Hides fingerprints and greasy streaks on stainless steel applications

Pack Size: 6 x 1 qts
Code: 112606

Steel Brite

Aerosol Stainless Steel Cleaner/Polish

- Cleans, polishes, brightens, protects
- Easily removes tough oil-based stains, water spots, spills and food soils
- Invisible coating resists further soiling, fingerprints, water marks and rusting

Pack Size: 12 - 17 oz. cans/cs
Code: 118512

Sunburst Food Service Dispensers

P4C4000

Multi-Purpose Push-For-Concentrate Battery Operated Dispenser

- Battery Powered
- Moisture and water resistant
- Easy programming for push concentrate
- Easy Installation
- 2 and 10 minute lock out available
- AC adapter available DA0058

R2U4000

Ready to Use Dispensing System

- Produces ready to use solution
- Concentrate for spray bottle fill
- Solution for mop bucket
- Detergent Solutions can be strengthened for cleaning tough soils
- Patent #5,478,537; #5,342,587, #5,846,499

R2U5000

Ready to Use Sanitizer Dispensing System

- For use with Sentry
- Dispenses consistent mixture of water and detergent for effective Ready-to-Use solution of sanitizer
- Sanitizer solution is controlled to 200-400 ppm Quat
- Patent #5,478,537; #5,342,587, #5,846,499

R2U6000

Ready to Use Dispensing System

- Produces ready to use solution
- Ideal for applications to fill 3-bin sinks, mop buckets, or auto scrubbers
- No power required
- Use solution simply by turning valve handle – no operator judgments

R2U6000T Lock Box

R2U6000 Tamperproof Ready to Use Dispenser

- R2U6000T Lock Box for use with R2U6000 Ready to Use Dispenser (see above)
- Order: R2U6000T

TTB5000

Trap Tender

- For drain and grease trap treatment
- Automatic Dispensing
- Battery powered
- AC Adapter available DA0058
- Moisture and water resistant
- Easy programming
- Easy installation

MBS2000

Master Blaster

- Wash-Rinse-Sanitizer dispenser for hose spray down cleaning and sanitizing applications
- Simply turn a dial to wash, rinse or sanitize
- Use with Score or Solid Green 14 and Sentry
- Supplied with a 50 ft hose, hose rack and spray gun
- Simple and safe to use
- Remove Shut off
- Mainly used to clean meat rooms
- Patent # 5,549,875

Warewash Detergent Bowl (WWD)

Solid Detergent Bowl

- Allows free flow of product to reduce build up
- Used to feed encapsulated solid products
- Stock dispensers include: WWD100L, WWD140L, WWD150L

Warewash Rinse Bowl (WWR)

Rinse Bowl

- Allows free flow of products to reduce build up
- Used to feed encapsulated solid products
- For use with Clarity and Solid Green 23 Rinse Aid

WWD100LT/WWR200LT Lock Box

Tamperproof Large Detergent and Rinse Bowl

- WWD100LT Lock Box for use with Warewash Detergent Bowl (WWD) (see above)
- Order: WWD100LT (Tamperproof Large Detergent Bowl)
- WWR200LT Lock Box for use specifically with Warewash Rinse Bowl (WWR) (see above)
- Order: WWR200LT (Tamperproof Large Rinse Bowl with float and 24 VDC valve)

Sunburst Chemicals

Complete solutions for your janitorial needs...

Sunburst Chemicals has revolutionized solid detergents for the janitorial/housekeeping service industry. The outstanding benefit here is an incredible cost/value ratio due to 100 percent concentrations and completely controlled dispensing of product.

Floors

Sunburst offers solid detergents for most any floor cleaning project including carpet extraction, floor finish removing/stripping and disinfecting. Whether your application is a mop job or one that requires an auto scrubber; a quarry floor or a heavily abused cement plant floor; a commercial warehouse or a finely-finished shopping mall entry-way; Sunburst has the products to make it look like new.

Rest Rooms

Sunburst offers the only solid quaternary ammonium detergent/disinfectant/deodorant available for cleaning floors, walls and toilet fixtures. Tub & tile, and glass cleaners complete the job. Solid technology offers superior performance in removing soap scum, water spots and films, leaving the rest-room area with a fresh clean scent.

Glass/Mirrors and Hard Surfaces

One capsule of Sunburst Chemicals' solid glass cleaner can yield up to 900 gallons of glass cleaner! Specifically formulated to clean glass, tile, porcelain, chrome and stainless steel fixtures. Non-ammoniated formula results in no strong, unpleasant odor.

General Purpose (Spray & Wipe)

Sunburst's general purpose solid detergents offer the ultimate in flexibility. A convenient dispensing system provides a central station to fill trigger-spray bottles with interchangeable products. Solid detergents are available for specific needs such as detergent/ disinfectant, hard surface cleaning, or neutral pH detergent. Choose products for specific areas, or select one broad-based product for all your general purpose/spray & wipe needs.

Odor Control

Sunburst has the right odor control/deodorant product for your application. Our revolutionary new solid odor neutralizer is a compound that chemically reacts with and neutralizes foul odors and leaves the treated area with a pleasant fragrance. It eliminates odors in hotel rooms, garbage storage areas, healthcare facilities, schools, vehicles and more.

Providing the right product for the job.

Sunburst Chemicals offers a wide selection of solid detergent products for janitorial and housekeeping applications.

Cleaning products for specific items are available: from finished floors to carpet; from deep cleaning to stripping; from sparkling glass to disinfectant; Sunburst has the right product for the job.

Drain Treatment

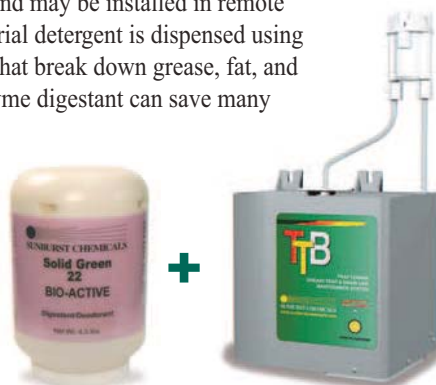

Sunburst Chemicals features the industry's first solid bacterial drain treatment product. In comparison to similar grease trap and drain treatment products, solid technology provides, by far, the most concentrated biological product on the market. Combined with our revolutionary dispensing system, product is delivered to the drain with optimum dispersion—it efficiently carries product farther into the system with better penetration and results.

A Complete Maintenance System for Drains

The Trap Tender dispensing system is one of the smallest and easiest-to-use systems available today. This battery-operated dispenser is mounted up off the floor and may be installed in remote locations to treat drain lines as well as grease traps. Biozyme bacterial detergent is dispensed using the Trap Tender. Biozyme is a synergistic blend of bacteria spores that break down grease, fat, and other complex organic materials naturally. Regular dosing of Biozyme digestant can save many dollars worth of aggravation, inconvenience and service calls.

See the Trap Tender Program on pages 12-13.

Sunburst Chemicals

Offering environmentally responsible solutions.

Leading the Way to Greener Cleaning

Sunburst Chemicals continues to be on the forefront of cleaning technology, and has been since we began producing solid detergents in the early 1980s. Solids' unique design not only saves on the environment, but also reduces energy consumption and increases workplace safety. With products that are DfE certified, as an active member of CleanGredients™, and using lean manufacturing practices, Sunburst Chemicals has the expertise and the products to deliver the best environmental solutions for your cleaning needs.

Solid detergents are safer, more reliable and the best environmental choice when compared to liquid solutions.

Reduce & Recycle

When it comes to protecting the environment, Sunburst's solids offer many advantages:

- Solid technology leverages state-of-the-art surfactant technology — you get the best cleaning through a 100% concentrate.
- Solids' 100% concentrate reduces container size. Solids' containers use the least grams of plastic per volume of use solution in the industry.
- Empty means empty
 - No chemical residue left in the container to end up in landfills.
 - No rinsing required, so no wasted water and nothing down the drain.
- Containers are Class 2 recyclable.

Protecting our environment.

Saving Energy

Environmentally-responsible solutions must consider the complete picture, including operational efficiencies and energy usage. Sunburst solids offer energy savings by:

- Reducing fuel consumption for freight and delivery — solids take up less space, which requires fewer trucks to ship them.
- Reducing heat required for transport and storage, because solids will not freeze or thaw.
- Reducing operational utility costs through products, training, and consultations. This alone can save thousands of dollars.

Sunburst takes into consideration all angles of energy consumption and provides the best formulas for overall energy reduction with while maintaining quality cleaning results.

Increasing Health & Safety

Sunburst products and programs clean better and deliver quality results... and a cleaner facility is a safer one. Advantages of our products include:

- Solids in their natural state cannot be spilled, splashed or mixed by hand, which greatly reduces the risk of employee contact with chemical concentrates, helping employers maintain a healthier, safer workplace.

Sunburst Chemicals is a leader in green cleaning expertise by:

- Working with the EPA to develop Sunburst products with DfE certification
- Being an active member of CleanGredients™
- Practicing lean manufacturing

Solid Green Janitorial / Housekeeping

In addition to being environmentally responsible, Sunburst Chemicals' solid detergent program meets the sanitation demands of the janitorial and housekeeping industries with ease of use, through accurate control, and by keeping overhead low.

Spray Kleen Program

Provides Consistent Quality and is Easy on the Environment

Features and Benefits to the Spray Kleen Product Line

Packaging Reduces Landfill Waste

- 2/5 gal versus 4/1 gal pack reduces plastic 58%

Smaller Pack Size

- Saves Energy, more cases can be shipped on trucks reducing diesel fuel consumption
- Improves inventory space issues, less shelf space required
- Takes pails off the floor to ease mopping under drain tables
- Jug inserts prevent spilling or 'Glug, Glug' waste of product

Concentrated Formula Lowers use of Natural Resources; Water

- 2/5 gal pack saves 75% of water used in production of traditional 4/1 gal. pack.

Employee Safety

- Color Coded to ensure proper product usage
- Closed Loop System keeps employees away from chemical contact by avoiding mixing of incompatible chemicals.
- Eliminates possible injury from lifting heavy 5 gallon pails
- Controlled usage

Bio Clean

Germicidal Detergent/Disinfectant/Deodorizer

- Germicidal Detergent/Disinfectant/Deodorizer
- Effective multi-purpose germicidal detergent/disinfectant/deodorizer when used at 1 oz per 2 gallons of water
- Disinfects, cleans and deodorizes in one easy step
- Pleasant fragrance leaves area clean smelling
- Each capsule yields 192 gallons of use solutions
- Patent #6,028,113 and #5,977,183

Pack Size: 1-4.5 lbs/case

Code: 5000S1

Extract

Carpet Extract Compound

- Specially formulated to deep clean carpets
- Contains low foaming, highly effective ingredients
- Safe on all carpet types
- Pleasant lemons fragrance
- Extra rinsing aids pull stains, grease and soils out even from traffic lanes
- 100% active raw materials - no water or fillers added
- Each capsule yields 480 gallons of use solution

Pack Size: 1-5.5 lbs/case

Code: 1910S1

Neutral Cleaner

All-Purpose Neutral Cleaner

- Formulated to effortlessly and safely clean all hard surfaces: floors, walls, drinking fountains, sinks, display cases, cash registers, check out stands, water safe furniture, showers and tubs.
- Specially formulated to provide a neutral pH cleaning solution in all concentrates
- No rinsing necessary- eliminated time and labor
- Non-flammable, non-toxic and non-corrosive
- 100% active raw materials- no water or fillers added
- Each capsule yields 720 gallons of use-solution

Pack Size: 1x-4.5 lbs/case

Code: 1121S1

Odor Destroyer

Solid Odor Neutralizer – room deodorizer

- Chemically reacts with and neutralizes foul odors
- Safe to use on all surfaces
- Pleasant fragrance
- Each capsule yields 80 gallons of use solution or 512 – 20 oz trigger spray bottles

Pack Size: 1-2.5 lbs/case

Code: 5860S1

Reflect

Tub and Tile Cleaner- non-acid

- Versatile cleaner for all hard surfaces; porcelain, ceramic tile, quarry tile, concrete, glass, formica, etc
- Can also be used in restrooms on floors, sinks, plumbing fixtures, toilets and mirrors
- Please scent
- Will not damage grout or tile
- Removes soap scum, hard water spots and films
- Each capsule yields 200 gallons of use solution

Pack Size: 1-5 lbs/case

Code: 1700S1

Solid Green All Purpose #14

“Green” DfE All Purpose

- Great for foam applications
- Leaves stainless steel shining, bright and film free
- Can be used on all surfaces
- Formulated with ingredients that are not harmful to the people who use it
- Contains no phosphorus, APEs, NPEs, solvents, VOCs, or corrosive caustic materials
- Rapidly biodegradable
- Yields 200-800 gallons per capsule
- Pack Size: 1x4.5 lbs/case

Code: 6004S1

Solid Green Biological All Purpose Cleaner #24

Biological All-Purpose Cleaner

- Multi-purpose product for any surface not harmed by water
- Made exclusively with ingredients that are environmentally friendly
- Biological agents added to destroy odors and decompose soils after cleaning
- Contains No Phosphorus, VOCs, APEs Or Solvents
- Excellent cleaning performance in a wide variety of applications- auto scrubbers, trigger sprayers and wipes, foamy pressure wash or manual scrub
- Use to clean bathrooms, floors, counters
- Rinses easily and leaves no residue or film

Pack Size: 1x3.25 lbs/case

Code: 1624S1

Solid Green Glass & Neutral Cleaner #78

“Green” DfE Glass and Neutral Cleaner

- Neutral pH, not acid, alkaline or corrosive
- Rapidly biodegradable
- Safe on all surfaces
- Will not leave streaks and film on glass, mirrors or windows
- Will not clog orifices in automatic scrubbers or pressure sprayers
- Ideal for use on waxed floors
- Contains no phosphates, VOCs, butyl, toxic ingredients
- Yields 200 - 400 gallons per capsule

Pack Size: 1x2.5 lbs/case

Code: 1122S1

Spray Kleen Air Fresh

Odor Neutralizer/Air Freshener - in 1/2 gal closed loop F-Style

- Odor Neutralizer/Air Freshener in 1/2 gal closed loop F-Style
- Chemically reacts with and neutralizes foul odors and leaves the treated area with a pleasant fragrance
- Highly concentrated, economical to use
- Safe to use in all areas

Pack Size: 2x64 oz

Code: 1760F2

Spray Kleen All Purpose Citrus Cleaner

All Purpose Citrus Cleaner – in 1/2 gal closed loop F-Style

- High concentration of surfactants and sequestering agents to penetrate and remove soils
- Mild, non-caustic
- Power packed foam clings to vertical surfaces
- Free-rinsing
- Leaves stainless steel shining, bring and film free

Pack Size: 2x64 oz

Code: 1755F2

Spray Kleen Glass & Hard Surface Cleaner

Glass & Hard Surface Cleaner – in 1/2 gal closed loop F-Style

- Specifically designed to clean windows, mirrors, chrome fixtures, stainless steel, formica, and any surfaces
- Highly concentrated, economical to use
- Use solution does not leave streaks or films
- Contains environmentally friendly ingredients
- Does not contain volatile or flammable ingredients

Score

All Purpose Degreaser- Orange

- 100% active materials- no water or fillers added
- Heavy duty surfactants, oil & grease removers, food soil detergent and water conditioning agents lift soils and leave surfaces shining clean
- Rinses easily and leaves no residue or film
- Non-caustic, non-corrosive; very safe to use
- Great for spray on foam cleaning applications
- Excellent cleaning performance in a wide variety of applications- floors, auto-scrubbers, spray, foamy pressure wash or manual scrub
- Unique solid system saves space, eliminates container handling and disposal problems; accurate dispensing reduced use costs
- Each capsule yields 180-720 gallons of use solution

Pack Size: 1- 5 lbs/case
Code: 6000S1

Solid Green All Purpose #14

“Green” DfE All Purpose

- Great for foam applications
- Leaves stainless steel shining, bright and film free
- Can be used on all surfaces
- Formulated with ingredients that are not harmful to the people who use it
- Contains no phosphorus, APEs, NPEs, solvents, VOCs, or corrosive caustic materials
- Rapidly biodegradable
- Yields 200-800 gallons per capsule

Pack Size: 1x4.5 lbs/case
Code: 6004S1

www.sunburstchemicals.com

Extract

Carpet Extract Compound

- Specially formulated to deep clean carpets
- Contains low foaming, highly effective ingredients
- Safe on all carpet types
- Pleasant lemons fragrance
- Extra rinsing aids pull stains, grease and soils out even from traffic lanes
- 100% active raw materials - no water or fillers added
- Each capsule yields 480 gallons of use solution

Pack Size: 1-5.5 lbs/case

Code: 1910S1

Neutral Cleaner

All-Purpose Neutral Cleaner

- Formulated to effortlessly and safely clean all hard surfaces: floors, walls, drinking fountains, sinks, display cases, cash registers, check out stands, water safe furniture, showers and tubs.
- Specially formulated to provide a neutral pH cleaning solution in all concentrates
- No rinsing necessary- eliminated time and labor
- Non-flammable, non-toxic and non-corrosive
- 100% active raw materials- no water or fillers added
- Each capsule yields 720 gallons of use-solution

Pack Size: 1x-4.5 lbs/case

Code: 1121S1

Solid Green Biological All Purpose Cleaner #24

Biological All-Purpose Cleaner

- Multi-purpose product for any surface not harmed by water
- Made exclusively with ingredients that are environmentally friendly
- Biological agents added to destroy odors and decompose soils after cleaning
- Contains No Phosphorus, VOCs, APEs Or Solvents
- Excellent cleaning performance in a wide variety of applications- auto scrubbers, trigger sprayers and wipes, foamy pressure wash or manual scrub
- Use to clean bathrooms, floors, counters
- Rinses easily and leaves no residue or film

Pack Size: 1x3.25 lbs/case

Code: 1624S1

Solid Green Glass & Neutral Cleaner #78

“Green” DfE Glass and Neutral Cleaner

- Neutral pH, not acid, alkaline or corrosive
- Rapidly biodegradable
- Safe on all surfaces
- Will not leave streaks and film on glass, mirrors or windows
- Will not clog orifices in automatic scrubbers or pressure sprayers
- Ideal for use on waxed floors
- Contains no phosphates, VOCs, butyl, toxic ingredients
- Yields 200 - 400 gallons per capsule

Pack Size: 1x2.5 lbs/case

Code: 1122S1

Rally

Low Foaming All-Purpose Cleaner – typically used in floor scrubbers on non-finished floors, and in power sinks

- All purpose cleaner for floors, walls, fixtures or anywhere dirt soils persists.
- Safe and versatile
- Excellent cleaning performance in all water conditions
- Low foaming detergent allows for effective use in autoscrubbers
- Each capsule yields 880 gallons of use solution

Pack Size: 2-5.5 lbs/case

Code: 6025S2

Achieve

Hard surface and glass cleaner – pink, note 2x pack

- Specially formulated to clean hard surfaces including glass, mirrors, porcelain, tile, stainless steel, windshields, chrome fixtures
- Leaves surfaces streak free
- Pleasant fragrance
- Excellent spray and wipe for all soils and surfaces
- Each capsule yields 200 to 800 gallons of use solution

Pack Size: 2-5 lbs/case

Code: 1650S2

Selection Guides, Chemicals and Dispensers Continued

Deep Scrub

Floor Finish Restorer/Remover

- Solid floor finish/wax stripper use to strip all water emulsion waxes and finishes; acrylic, metal interlocks and urethane emulsions
- Will strip multiple payers, build-up or highly burnished finishes
- Low foam formula allows for effective use through an automatic scrubber
- Each capsule yields 80 gals of deep cleaning solution or 20 gallons of stripping solution

Packaging: 2-5 lbs/case

Code: 1136S2

Spray Kleen All Purpose Citrus Cleaner

All Purpose Citrus Cleaner – in ½ gal closed loop F-Style

- High concentration of surfactants and sequestering agents to penetrate and remove soils
- Mild, non-caustic
- Power packed foam clings to vertical surfaces
- Free-rinsing
- Leaves stainless steel shining, bring and film free

Pack Size: 2x64 oz

Code: 1755F2

Spray Kleen Multi-Surface Neutral Cleaner

Multi-Surface Neutral Cleaner

- Ideal to clean floors, walls, terazzo and quarry tile
- Fast acting, no rinsing necessary
- Eliminates the hazard of slippery floors
- Highly concentrated, yet non-caustic, mild to skin
- Economical, low use cost

Pack Size: 2x64 oz

Code: 1629F2

636 Odorless Degreaser

Heavy Duty Odorless Degreaser - non butyl

- Contains non butyl or solvents
- Unique blend of alkalis and surfactants
- Effective, yet easy-to-use degreaser
- Removes protein soils, animal fats, carbonized grease and encrusted soils from floors and walls

Pack Size: 4x1 gal

Code: 410001

Brute

Extra Strength Multi-Purpose Cleaner

- Floors, walls, terazzo and quarry tile
- Fast acting, free rinsing
- Eliminates the hazard of slippery floors
- Leaves surface clean and film free
- Safe to use on painted walls
- Picks up grease and cleans out grout
- Highly concentrated non-alkaline, mild to skin
- Economical, low use cost

Pack Size:: 4 x 1 gal

Code: 10004

Cut

Emulsion Degreaser

- Mild and non-caustic
- High concentration of surfactants and sequestering agents
- Power packed foam clings to vertical surfaces
- Free-rinsing
- Emulsifies heavy loads of unburned grease and oil without the hazard of caustic materials
- Removes grease with no additional scrubbing

Pack Size: 4 x 1 gal

Code: 610501

Effecto

Multi-Purpose Degreaser and Spot Remover

- Primary used for cleaning floors, walls and above floor cleaning to remove motor oil and grease
- Special Free-Rinsing Degreaser
- Rinses quickly and easily leaving no residue or film
- Used wherever grease is a problem

Pack Size: 2x1 gal

Code: 6115X2

HD Kitchen Degreaser

Heavy Duty - economy, alkaline

- Cleans grills, hoods, walls and floors
- Versatile all-purpose degreaser
- Dissolves heavy kitchen deposits and burned-on grease on contact
- Economical, low-use cost
- Non-phosphate

Pack Size: 4 x 1 gal

Code: 61104

Time Saver
Biological Floor Cleaner

- Bacterial action breaks down grease & oil for more effective removal by mopping
- Deep-cleans floors and grout by removing the grease and grime that collects in the pores of the floor surface
- Eliminates the greasy floor film that causes slipperiness
- Improves freshness by controlling odors from residual organics packed into irregular floor surfaces and grout
- Eliminates the need for rinsing after mopping
- Degrades residual organic soils that help support insects and other unwanted pests
- Formulated with environmentally friendly ingredients

Pack Size: 2 x 1 gal
Code: 1030X2

Guard
Aluminum Safe Degreaser

- Heat exchangers and coils
- Aluminum cookware
- Ovens & hoods
- Refrigeration units, air cleaners
- Ideally used with pressure washing equipment
- Non-phosphate

Pack Size: 4 x 1 gal

Biozyme

Biological Treatment

- Bacteria spores digest materials that clog grease traps and drains and reduce B.O.D.'s, C.O.D.'s and suspended solids.
- Unlike liquid drain products, Biozyme delivers a consistent shot of bacterial spores with each injection through its unique solid dispenser
- Regular treatment controls odor, prevents troublesome drain blockage and expensive grease trap pumping costs.
- Highest concentration of biological available today for automatic inject systems with 27 billion CFU's per ounce of Biozyme.
- As a true bacterial based product, the by-products of digestion are water and carbon dioxide - which means no negative effects on drain lines further down the line.
- Does not contain free enzymes
- Patent # 6,150,316

Pack Size: 1 x 4.5 lbs/case
Code: 1620S1

Vital

Bio Active Cleaner/Deodorant/Digestant

- Restroom hard surface and bowl cleaner that cleans and deodorizes with long lasting biological based chemistry
- Pleasant scent eliminates foul smelling odors
- Regular addition to drains prevents sludge accumulation throughout drain system
- Non-harmful bacteria suspension that keeps drains open
- Helps liquefy septic tank and drain field solids

Pack Size: 12- 1 quart case, 4x1 gal, 5 gal
Code: 162512, 162501, 162505

See the Trap Tender Program on pages 12-13.

Solid Green Bio-Active #22

"Green" Biological Treatment

- Great for use in septic tanks and drain fields
- Can be used in mopping applications in kitchens, restrooms and dock areas to breakdown organic material and for odor control
- Made with all rapidly biodegradable materials
- Contains no phosphate, volatile organic compounds, NPEs, or pH contributors
- Bacterial sources are not harmful to humans or animals
- Keeps drain lines free-flowing and grease traps functioning properly, reducing BODs, CODs and suspended solids
- Eliminates odors from drains and grease traps
- Yields 360 - 720 gallons per capsule
- U.S. Patent # 6,150,316

Pack Size: 1x4 lbs/case
Code: 1622S1

Grease Release

Solid Heavy Duty Degreaser

- 100% active raw materials- no water or fillers added
 - Specially formulated for cleaning the toughest grease related soils in the following applications: Carbon Floors, Grills Hoods
 - Unique blend of alkalis, surfactants and solvents to create an effective, easy-to-use degreaser
 - Much less hazardous to handle than liquid degreasers
 - Non-phosphate
 - Each capsule yields 128-640 gallons of use solution
- Pack Size: 1-5 lbs/case
Code: 6030S1

Defoamer

Food Grade Emulsion

- Used on automated warewash and panwash machines
 - Effectively solves any foam problems
 - For use on foam caused by:
 - Vegetable starch
 - Animal fats and proteins
 - Soap and detergents
 - Can be used in pickup side of floor autoscrubbers to kill foam
- Pack Size: 4x1 gal
Code: 463601

Effecto

Multi-Purpose Degreaser and Spot Remover

- Primary used for cleaning floors, walls and above floor cleaning to remove motor oil and grease
 - Special Free-Rinsing Degreaser
 - Rinses quickly and easily leaving no residue or film
 - Used wherever grease is a problem
- Pack Size: 2x1 gal
Code: 6115X2

Guard

Aluminum Safe Degreaser

 - Aluminum cookware
 - Ovens & hoods
 - Refrigeration units, air cleaners
 - Ideally used with pressure washing equipment
 - Non-phosphate
- Pack Size: 4 x 1 gal
Code: 486101

Hoodwash 090

Air Purification Equipment Degreaser

- Designed for electronic air purifying unit, industrial size with automatic cleaning cycles
- Effectively removes soil that reduce electrostatic charge effectiveness
- Restores maximum air purification efficiency to unit
- Completely safe and non-corrosive to all metals
- Non-phosphate

Pack Size: 5 gal

Code: 642605

Lime Remover Plus

Acid Cleaner/Descaler

- Effective on stainless steel, ceramic, glass and plastic
- Super concentrated ingredients and penetrating agents provide maximum effectiveness
- Breaks down hard water scale on contact
- Safe to use on stainless steel- contains no muriatic, hydrochloric or sulfuric acid
- Continued regular use helps your dishwasher, steam table, coffee maker, and ice machine perform at maximum efficiency (not for use on Formica counters)
- Non-foaming, no sharp odors or fumes

Pack Size: 4x1 gal

Code: 66224

Rally

Low Foaming All-Purpose Cleaner – typically used in floor scrubbers on non-finished floors, and in power sinks

- All purpose cleaner for floors, walls, fixtures or anywhere dirt soils persists.
- Safe and versatile
- Excellent cleaning performance in all water conditions
- Low foaming detergent allows for effective use in autoscrubbers
- Each capsule yields 880 gallons of use solution

Pack Size: 2-5.5 lbs/case

Code: 6025S2

So Easy

Stainless Steel and Hard Surface Polish – ready to use, trigger spray heads included

- Polish for all chrome, stainless steel, formica, vinyl or other hard surfaces, except for glass.
- Protects surfaces and leaves them water resistant and dust free

Pack Size: 6 qts/cs

Code: 112606

All Weather Premium Glass Cleaner

Aerosol Glass Cleaner

- Ready-to-use
- Penetrating foam helps to lift our soils
- Leaves surface clean, bright and crystal clear
- Contains no oils, waxes or silicones
- Non-ammoniated

Pack Size: 12 can/cs

Code: 112912

Steel Brite

Stainless Steel Cleaner/Polish

- Cleans, polishes, brightens, protects
- Easily removes tough oil-based stains, water spots, spills and food soils
- Invisible coating resists further soiling, fingerprints, water marks and rusting

Pack Size: 12 - 17 oz. cans/cs

Code: 118512

Sunburst Janitorial Dispensers

R2U4000

Ready to Use Dispensing System

- Produces ready to use solution
- Concentrate for spray bottle fill
- Solution for mop bucket
- Detergent Solutions can be strengthened for cleaning tough soils
- Patent #5,478,537; #5,342,587, #5,846,499

P4C4000

Multi-Purpose Push-For-Concentrate Battery Operated Dispenser

- Battery Powered
- Moisture and water resistant
- Easy programming for push concentrate
- Easy Installation
- 2 and 10 minute lock out available
- AC adapter available DA0058

R2U6000

Ready to Use Dispensing System

- Produces ready to use solution
- Ideal for applications to fill 3-bin sinks, mop buckets, or auto scrubbers
- No power required
- Use solution simply by turning valve handle – no operator judgments

R2U6000T Lock Box

R2U6000 Tamperproof Ready to Use Dispenser

- R2U6000T Lock Box for use with R2U6000 Ready to Use Dispenser (see above)
- Order: R2U6000T

Spray Kleen Dispenser

Spray Kleen Dispensers

- To be used with all Spray Kleen chemicals; see page 51-52.
- 801 Gap Single Product Low Flow, Order: 9400162
- 802 Gap Single Product High Flow, Order: 9400150
- 830 Gap Single Product High Flow and Four Product Low Flow, Order: 9400149
- 6 Foot Black Hose, Order: 9120006
- 40 PSI Pressure Regulator, Order: 9400381

TTB5000

Trap Tender

- For drain and grease trap treatment
- Automatic Dispensing
- Battery powered
- AC Adapter available DA0058
- Moisture and water resistant
- Easy programming
- Easy installation

Foam Hand Soap Dispenser

Hand Soap Dispenser

- Dispenses 1000mL pouches of foaming soap
- Dispenses .75mL with each push of the handle
- Only available in black
- Pairs well with our foaming hand soaps including: Sundrops #57, and Sundrops #67
- Order: 3537P1000

Liquid Hand Soap Dispenser

Hand Soap Dispenser

- Dispenses 1000mL pouches of instant hand sanitizers
- Dispenses 1.5mL with each push of the handle
- Available in black and white
- Pairs well with our instant hand sanitizer: Sundrops #75
- Order: 3537P185, 3537P1MWHT

Sunburst Chemicals

Offering complete solutions...

Sunburst laundry products are superior, easy-to-use, cost effective, and provide a wide range of applications. We offer liquid, powdered and solid detergents, sours, softeners, stain treatments and more that are designed to address the needs of a variety of commercial operations, including lodging and healthcare. Our solids are industry leaders, providing safety, quality results and accurate control and our liquids provide a cost effective “traditional” chemistry.

Benefits of Sunburst Chemicals Laundry Products:

- **Advanced Chemistry for laundering modern linen textiles**
- **Powerful chemistry is designed to clean and extend linen life**
- **Our products increase production, reduce water usage and save on energy costs**
- **Sunburst offers a broad range of products which allows for customization with: Varying water conditions, different textile types and different soil classifications**
- **Liquids, solids and powders available**

Liquids, solids, and powders are available to address the needs of a variety of commercial laundry operations.

...For your laundry needs.

LIQUID product offering provides access to a very complete line of high quality, cost effective “traditional” chemistry.

- Complete Product Offering for Broad Applications
- Proven Quality Product
- Proven Cost Effectiveness
- Available in bulk for large volume

SOLID products offer a unique, proprietary solution to sell that offers tremendous benefits for both the end user and the distributor that are not available from competition.

- Improved Safety
- 100% Concentrate
- Reduced Storage, Freight and Handling
- Lower Use Costs
- Increased Performance
- GREEN / Environmentally Preferable
- Indefinite Shelf Life
- Compact Dispensing Implementation
- Easy to Use
- Controlled Usage

Sunburst Chemicals’ solid technology affords superior chemical combination. Chemicals that would otherwise be incompatible or settle out of liquids, remain suspended throughout solids for an incredible cleaning chemistry.

Sunburst’s solids lead the way in safety, quality results and accurate control.

Conserv Energy System (CES)

is “solid patented technology” that allows you to protect your environment AND save money.

U.S. Patent No. 5,830,839

Developed in partnership with the EPA's "Design for the Environment."

The Sunburst Conserv Energy System™ (CES): *Cold Water Use. Hot Water Results.*

The Conserv Energy System cleans even heavily soiled textiles in water temperatures ranging from “cold” to 120 degrees. This advanced laundry detergent system was developed in partnership with the EPA’s “Designed for the Environment” program.

CES is a blend of proprietary EPA-approved surfactants, highly-active enzymes, powerful oxygen bleach, and an easy-to-use dispensing system. A key piece of the Conserv Energy System is Sunburst’s new Compass solid laundry detergent.

Compass is a revolutionary one-shot system that most often requires *NO* additional chemicals in the washing process. It is 100-percent biodegradable and is made from a 100-percent “green” formulation. It has no phosphates, caustics, nonylphenol ethoxylates, toxic polymers, solvents, dyes, or perfumes. It cleans by breaking apart soils and other tough stains which can then be easily washed away. It packs a powerful cleaning punch, and allows users to save, save, save!

Compass Saves...

- ... **water utility costs** by cleaning without alkalinity, separate bleaching steps, an acid sour step, or numerous rinses. The result is less overall water usage, and that adds up to lower water utility costs.
- ... **heating utility costs** by cleaning light, medium and heavily soiled textiles in water temperatures from “cold” to temperatures of 120 degrees. The result is less hot water usage, and that adds up to lower natural gas costs.
- ... **electrical utility costs** by eliminating unnecessary wash steps and reducing wash time. The result is less kilowatt-hours consumed running the motors, and that adds up to lower electricity costs.
- ... **labor costs** by washing faster and producing more loads per hour than conventional washing programs. The result can be a reduced or redirected operation staff, and that adds up to lower labor costs and/or a more productive labor team.
- ... **washing equipment wear** by using less time to launder the same number of textiles in a given machine. The result is less run time, and that adds up to lower maintenance and repair costs, and longer machine life.
- ... **textile replacement costs** by washing for a shorter period of time in non-harsh chemistry and low-temperature water. The result is prolonged textile serviceability, and that adds up to lower replacement costs.

Conserv Energy System – Complementary Products

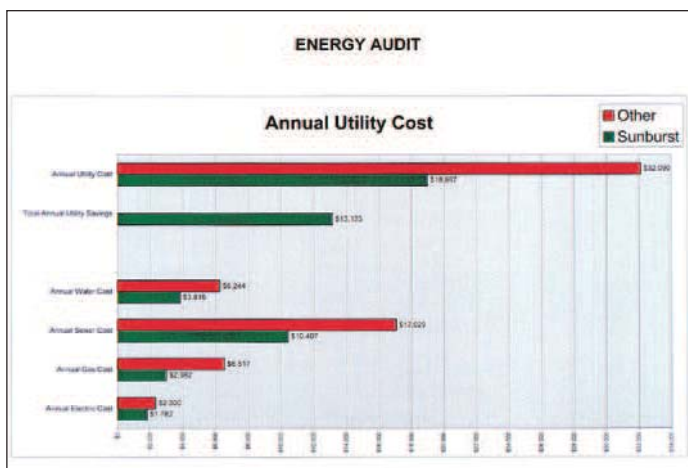

Sunburst Chemicals understands and appreciates that not all laundry operations are the same. The Conserv Energy System is adaptable to your specific laundry cleaning situation and needs, and includes a full line of complementary solid laundry products to enhance your operation while saving you money, time and energy. Solid chemicals reduce inventory and handling costs and provide for safe, convenient, handling by employees.

Conserv SG65 Laundry Detergent is a one-shot laundry detergent with special ingredients to remove heavy grease and particulate soils from all fabrics. Contains water conditioners for a clean, bright wash. Safe and convenient form eliminates the potential hazard of employee injury by accidental contact with product.

Conserv SG55 Color Safe Bleach is a solid oxygen bleach that whitens, brightens, and removes even the toughest stains in hard, soft, warm or cold water. It minimizes textile strength loss caused by misuse of chlorine bleach, and leaves textiles fresh and odor free. Conserv SG55 Color Safe Bleach is designed to be used during the wash step, saving time and energy.

Conserv SG80 Fabric Softener is a solid softener that speeds extraction and drying time while reducing wrinkling and static cling. It enhances the fluffiness and smoothness of cottons and cotton/polyester blends. Proper use can help preserve cotton goods and prolong the textile life. Conserv SG80 Fabric Softener boosts fabric whiteness and brightness. It helps to reduce energy consumption, as well as production handling and finishing time.

Conserv SG84 Iron Removing Sour is a solid neutralizer that reduces staining problems associated with iron and other minerals by effectively controlling metals in the water. It keeps these materials from depositing on the textiles, providing optimum stain protection. It can condition textiles for high speed finishing, and eliminates speckling during the pressing process.

See the Savings of CES Using Energy Audit Software

Sunburst Chemicals Energy Audit software allows you to quickly and easily assess your current utility costs while showing you a potentially better option. Simply plug in the modules required, and your current utility unit costs (electricity, gas, sewer, water) and even labor. Comprehensive, detailed comparisons are made of your current laundry utility cost and a Sunburst Chemicals alternative. The software does the calculations for you. In many cases you'll find that Sunburst products will use less electricity, less gas, less hot water, and save labor costs.

The Sunburst Stain Removal System (SRS)

A Complete Laundry Stain Removal System

Stain-Removing Reclaim Additives

Break-Out — An all-purpose alkaline reclaim additive, Break-Out is a highly effective alkaline builder for extreme soil conditions. It is formulated as a heavy-duty builder that is used in addition to other Sunburst detergent products.

Enz-Out — An organic stain reclaim additive, Enz-Out is the most advanced product available for cleaning greases, oil stains, food stains and makeup. Using Enz-Out will result in cleaner, brighter linens and shorter wash times compared to many other systems. Low pH formula reduces loss of tensile strength and increases fabric life.

Rust-Out — An iron and rust-removing reclaim additive, Rust-Out is a special laundry additive used to remove brown or yellow stains caused by the presence of iron (rust).

Effecto

A special free-rinsing degreaser ideal for laundry pre-spotting. Use wherever grease is a problem. Rinses quickly and easily, leaving no residue or film. USDA approved.

Choosing the Right Product for the Job

Using the Sunburst SRS is fast and easy. Simply follow these steps for selection of the right product:

1. Identify the type of stain to be removed.
2. Select the spotter that removes the identified stain or stains.
3. Refer to the chart below to best match the stain to the correct spotter.

SR1

An oil-based laundry spotter for the removal of oil-based stains. Aids in the removal of the following types of stains:

| | | | | |
|-------------|----------|-------------|----------------|-----|
| Collar Cuff | Inks | Mascara | Salad dressing | Wax |
| Cooking Oil | Lipstick | Nail polish | Shoe polish | |
| Gravy | Lotions | Oil | Suntan lotions | |
| Grease | Make-up | Ointments | Tar | |

SR2

This laundry spotter covers a broad spectrum of stains. It aids in the removal of the following types of stains:

| | | | | |
|-----------|---------------|-----------------|--------------|-------|
| Beverages | Chocolate | Food | Liquor | Wine |
| Blood | Coffee | Ground in soils | Perspiration | Vomit |
| Candy | Collar & cuff | Ketchup | Tanin | |

SR3

This is a rust and iron removing spotter. It's a concentrated product that removes iron stains from laundry linens.

SRS Starter Kit

In addition, Sunburst offers an SRS Starter Kit. This kit consists of two 28-ounce bottles of SR1, one 28-ounce bottle of SR2, and one 28-ounce bottle of SR3. One red and one green trigger sprayer head along with a color-coded wall chart are also included. The SRS Starter Kit is an essential tool for on-premise laundries.

Using the Sunburst Stain Removal System saves chemical dollars, energy dollars, wash formula time, linen replacement cost and labor cost.

See the Energy Audit on page 71.

PTC

Patent-Pending Green Chemistry for Laundering Textiles

We take pride in the fact that all of our products provide excellent cleaning results at a reasonable cost, and make a radical difference in being friendlier to the environment. PTC products make the promising potential of green technology a reality right now.

- **Reduce the amount of energy you use**
- **Reduce the amount of water you use**
- **Reduce the amount of rewashing you do**
- **Reduce the amount of linen replacement you pay for**
- **Eliminate environmentally harmful chemicals**

Sunburst Chemicals guarantees that you will save a MINIMUM of \$.50 for every 100 lbs of linen you process — through laundry utility cost savings. This is a minimum savings of \$50,000 per year for a 10 million pound facility.*

Not only are PTC products better for the environment; they're better for laundering as well by offering:

- Lower temperature, lower pH washing with less rinsing for whiter, brighter textiles
- Better stain removal virtually eliminating the need for rewash
- Reduced tensile loss (linting) for longer textile life
- Faster drying for shorter laundry cycling that improves productivity/overall efficiency

* Cost savings guarantee contingent upon on-site operator's survey results.

 **Go Clean.**

 **Go Green.**

 **Save Money.**

 **Guaranteed.**

Selection Guides, Chemicals and Dispensers by Application

Breaks & Builders

| | Powder | Liquid | For Hard Water | For Soft Water | "Green" | For Large Laundries | Contains Water Conditioners and Anti-Redeposition Agents |
|----------------|--------|--------|----------------|----------------|---------|---------------------|--|
| Alkali I | | X | | X | X | X | |
| Conquest II | | X | X | | | X | X |
| Powdered Break | X | | X | | | | X |
| PTC 202 | | X | | X | X | X | |

Powdered Break

Alkaline Builder

- Highly effective alkaline builder for extreme soil conditions
- Formulated as a heavy duty builder
- Enhances removal of greasy soils and food stains
- Suspends large quantities of soils in wash water to prevent redeposition
- Excellent in all water conditions

Pack Size: 50 lb

Code: 741050

Alkali I

Alkaline Builder- use with soft water

- Power-plus alkali for the hardest cleaning jobs
- Super concentrate
- Attacks even the heaviest of soils
- Cost effective
- Pumpable liquid

Pack Size: 5 gal, 15 gal, 55 gal

Code: 700005, 700015, 700055

Conquest II

Alkaline Builder with Conditioners – for hard water

- Power-plus alkali for the hardest cleaning jobs
- Contains water conditions for added detergency and hardness control
- Prevents fabrics from yellowing and promote uniform bleaching activity
- Mixes quickly in washers, reducing valuable wash time
- Can be very important to tunnel/CBW washing type machines

Pack Size: 2x8.5 ltr, 5 gal, 15 gal, 55 gal

Code: 700302, 70035, 700315, 700355

PTC 202

"Green" Alkaline Laundry Builder – for PTC Program

- Super concentrate
- Used when the best and strongest liquid available is needed
- Attacks even the heaviest of soils
- Cost effective
- Pumpable Liquid
- Contains no phosphorus, VOCs, APEs or NPEs
- Rapidly biodegradable
- For low temp washing

Pack Size: 55 gal

Code: 700755

Destainers

| | Solid | Powder | Liquid | For Large Laundries | "Green" | Oxygen Bleach | Chlorinated Bleach | Color Safe | Rust & Iron Remover | Dispensed Using MSL (See page 87) |
|--------------------------------|-------|--------|--------|---------------------|---------|---------------|--------------------|------------|---------------------|--------------------------------------|
| Conserv SG55 Color Safe Bleach | X | | | | X | X | | X | | X |
| Stage 2 | X | | | | | | X | | | X |
| Oxalic Acid | | X | | X | | | | | X | |
| Sun-Lite Bleach | | X | | | | | X | | | |
| Chlorbrite | | | X | X | | | X | | | |

| PTC 408 | | | X | X | X | X | | X | | |
| PTC 903 Additive | | | X | X | X | | | X | | |

Conserv SG55 Color Safe Bleach

- Safely removes stains and whitens and brightens lens
- Removes stains without damaging fabric color
- Safe for use on all fabrics
- Effective in all water conditions
- Yields approximately 60 (50 lb) loads per 5.5 lb capsule

Pack Size: 2- 5.5 lbs/case

Code: 7761S2

Stage 2 Chlorinated Laundry Detergent/Destainer

- Super concentrated chlorinated formula attacks soil and stains for easy removal during a laundry wash process
- Soil suspension and water conditioning agents prevent dulling and graying of fabrics
- Cleans and whitens in one easy step
- Each capsule yields approximately 240 (50 lb) loads
- Patent #5,929,011

Pack Size: 2-5.75 lbs/case

Code: 778052

Oxalic Acid Rust and Iron Remover

- Special laundry additive
- Removes brown or yellow stains caused by the present of iron (rust)
- Removes "set" stains
- Increases rewash effectiveness

Pack Size: 55 lb

Code: 746955B

Sun-Lite Bleach

Powder Chlorine Bleach

- Granular bleaching compound
- Effective for use as a stain removing agent
- Free rinsing
- Rapid solubility
- Brightens colored fabrics, whiten white fabrics and remove stains from linens

Pack Size: 50 lb

Code: 733050

Chlorbrite

Chlorine Bleach – 12%

- Removes stains- brightens and whiteners
- Highly concentrated
- Leaves linens smelling fresh
- Disperses rapidly

Pack Size: 2x8.5 Ltr, 5 gal, 15 gal, 55 gal

Code: 776202, 776205, 776215, 776255

Hydrogen Peroxide

Liquid Oxygen Bleach – 34%

- Removes Stains
- Brightens & whitens linens
- Disperses rapidly
- Low temp washing- temp ranges up to 145 °F

Pack Size: 5 gal, 15 gal

Code: 799605, 799615

www.sunburstchemicals.com

Selection Guides, Chemicals and Dispensers Continued

PTC 408

Liquid Oxygen Bleach- for PTC Program

- Disperses rapidly
- Formulated for low-temp washing
- Removes stains
- Gives brighter, whiter and fresher smelling linens
- Safe to use on white and colored fabrics
- Will not damage or discolor items

Pack Size: 53 gal

Code: 799653

PTC 903

“Green” Activator – Oxygen Bleach activator- for PTC program

- Releases oxygen bleaching agents at low temperatures
- Low temp washing
- Greatly increases the effectiveness of hydrogen peroxide bleaching
- Extends life of linens
- Dramatically reduces lint in the laundry program
- Enables use of lower processing temperatures and pHs
- Less effluent to treat, less souring required
- Contains no phosphates, VOCs, NPEs, APEs or flammable liquids

Pack Size: 55 gal

Code: 793055

Alpha Alkaline Built

- One-shot laundry detergent
- Removes oils from all types of fabrics
- Contains water conditioners for clean bright water
- Designed for use in all water conditions
- Soil suspending agents prevent graying and redeposition
- USDA approved
- Each capsule yields approximately 100 loads per capsule

Pack Size: 2-5 lbs/case

Code: 7865S2

Solid Golden Brite Alkaline Built – lower cost/lb, newer technology

- Designed for institution use
- One-shot emulsion built detergent for effective removal of soils and stains
- Excellent water conditioning
- Contains wetting agents, anti-redeposition ingredients and high powered linen brighteners
- Simplifies detergent systems
- Yields approximately 40-60 lbs per 6 lb capsule

Pack Size: 2-5 lbs/case

Force Alkaline Built – non-phosphate

- One-shot detergent formula removes the hardest soils
- Premium detergent system
- Excellent results in hard water conditions
- Soil suspending agents prevent graying and redeposition
- Optical brighteners intensify the whiteness of whites and the brightness of colors
- For use in phosphate-free environments

Pack Size: 2-5 lbs/case

Code: 7867S2

Conserv SG65 Laundry Detergent “Green” DfE Alkaline Built

- One-shot laundry detergent
- Removes heavy grease and particulate soils from all fabrics
- Contains water conditioners for a clean, bright wash
- For use in all water conditions
- Contains no phosphates, VOCs, alkyl phenols (APEs, NPEs)
- Rapidly biodegradable

Pack Size: 2-6 lbs/case

Code: 7868S2

www.sunburstchemicals.com

Selection Guides, Chemicals and Dispensers Continued

Ultimate Non-Alkaline

- Designed for institutional use
- Penetrates beyond the surface to clean down into linen fibers
- Safe, non-caustic
- Replaces up to four standard chemicals
- Gentle on linens, extends linen life and reduces replacement costs
- Reduces wrinkles and eliminate static cling
- Outstanding detergent system for commercial or top-load machines
- Excellent results in soft or very hard water conditions
- Yields approximately 87 (50 lb) loads per 6.5 lb capsule

Pack Size: 2-6.5 lbs/case
Code: 7860S2

Prizm Non-Alkaline- with enzymes and color safe bleach

- Revolutionary solid detergent for instruction
- Penetrates beyond the surface to clean down into linen fibers
- Stain fighting enzymes and oxygen bleach pulls out stains
- Safe, non-caustic
- Replaces up to four standard chemicals
- For commercial or top-load machines
- Reduces wrinkles and eliminates static cling
- Non-phosphate
- Patent #5,830,839
- Yields approximately 80 (50 lb) loads per 5 lb capsules

Pack Size: 2-5 lbs/case
Code: 7862S2

Compass “Green” DfE Non-Alkaline – with enzymes and color-safe bleach

- Washes in color or warm water
- One-Shot system- has all the ingredients necessary to clean all textiles
- Contains highly active enzymes and oxygen bleach
- Contains special surfactants that combine to clean tough stains by breaking apart soils
- U.S. Patent #5,830,839

Pack Size: 2-5 lbs/case
Code: 7866S2

Matrix One-Shot – mildly alkaline

- Contains special ingredients to remove heavy grease and particulate soils from all fabrics
- Contains water conditions for a clean, bright wash
- Non-phosphated
- Super concentrated
- Used in all water conditions

Pack Size: 2-5 lbs/case
Code: 7856S2

Accent Typically used in home style machines

- Powers out soils and stains
- Lifts soils from fabric and holds the soil suspended in the wash water to flush it down the drain
- Contains special brighteners to make whites whiter and colors more vibrant
- For use in all wash temperatures

Pack Size: 40 lb
Code: 740540

Uniterge Industrial

- The most advanced product available for cleaning grease, oil stains and odors from industrial uniforms, towels, etc.
- Low pH formula
- Reduces tensile strength loss and increases fabric life
- USDA approved

Pack Size: 50 lb
Code: 742650

PTC 305 “Green” DfE – with enzymes, for PTC program

- Dissolves tough stains
- Safe on all fabrics
- Controlled sudsing
- Fast Rinsing
- Contains no phosphorus, VOCs, APEs, NPEs, flammable liquids or corrosives
- Rapidly biodegradable
- Specially formulated for low temp washing

Pack Size: 55 gal
Code: 784955

PTC 309

“Green” DfE – for PTC program

- Penetrates deep into the soils, removing stains and soils from fabrics
- Contains wetting agents and detergents to break down surface tension
- Controlled sudsing
- Safe on all fabrics
- Fast Rinsing
- Contains no phosphorus, VOCs, APEs, NPEs, flammable liquids or corrosives
- Rapidly biodegradable
- Specially formulated for low temp washing
- Recognized by the Environmental Protection Agency's Design for the Environment Program

Pack Size: 55 gal
Code: 785055

System III

Alkaline Built Detergent Emulsion

- Super Concentrated
- All-in-one detergent product
- Highly alkaline for maximum cleaning power
- Simplifies detergent systems by replacing two or three products with one
- Produces clean, white and odor-free linens
- Contains water conditioners, wetting agents, and anti-redeposition properties

Pack Size: 2x8.5 ltr, 5 gal, 15 gal
Code: 783402, 78345, 783415

Golden Brite

Alkaline Built Detergent Emulsion – with brightener

- Designed for institutional use
- One-shot detergent
- Contains exceptional water conditioning, wetting agents, anti-redeposition properties and high powered linen brighteners
- Simplifies detergent systems
- Produces clean, bright liens

Pack Size: 2x8.5 ltr, 5 gal, 15 gal
Code: 783602, 783605, 783615

Master Blend

Alkaline Built

- Super concentrated, high performance alkaline detergent
- One-shot detergent; Simplifies detergent systems by replacing two or three products with one
- Powers out dirt and stains for consistently clean linen
- Contains alkalinity, wetting agents and anti-redeposition properties

Pack Size: 5 gal, 15 gal
Code: 783205, 783215

Reliance

Concentrated- Non-phosphate

- Contains wetting agents and detergents that break down surface tension and penetrate deep into the soils, removing stains and soils from the fabric.
- Controlled sudsing
- Safe on all fabrics
- Fast rinsing

Pack Size: 2x1 gal, 2x8.5 ltr, 5 gal, 15 gal, 55 gal
Code: 7842F1, 784202, 784205, 784215, 784255

Trust

Concentrated – designed for oily and greasy soils

- Outstanding rinsability
- Non-phosphate
- A powerful detergent/solvent laundry cleaner
- For use in hard water conditions
- Contains special surfactants to penetrate stains and soil in all fabrics

Pack Size: 4x1 gal, 2x8.5 ltr, 5 gal, 15 gal, 55 gal
Code: 784001, 784002, 784005, 784015, 784055

Conclude Sour

- Safe on all fabrics- will not damage linens
 - Controls discoloring due to iron
 - Optical brighteners enhance the whiteness of whites and the brightness of colored linens
 - Ideal for shirt laundries and for use on table linens
 - Balances the pH of linens
- Pack Size: 2-5.5 lbs/case
Code: 7880S2

Conserv SG84 Iron Removing Sour

- Helps eliminate dryer scorch and yellowing caused by iron
 - Final rinse assures brilliant whites and colored linens
 - Contains no phosphate, VOCs, alkyl phenols
 - Rapidly biodegradable
- Pack Size: 2x5 lbs/case
Code: 7945S2

Final Plus Rust Removing Sour

- Prevents browning, yellowing and speckling caused by rust stains
 - Ideal for processing iron discolored items
 - Adjust final pH
 - Keeps linens whiter and brighter
- Pack Size: 2x8.5 ltr, 5 gal, 15 gal, 55 gal
Code: 793802, 79385, 793815, 793855

Final Concentrated Sour- HFS

- Designed to adjust the final pH
 - Prevents scorching and speckling
 - Prevents skin irritations
 - Lessens fabric harshness
- Pack Size: 5 gal, 15 gal, 55 gal
Code: 79365, 793615, 793655

Neutral-pH Super Concentrated Sour – HFS

- Designed to adjust the final pH in the wash cycle
 - Eliminates scorching and speckling
 - Prevents skin irritations
 - Lessens fabric harshness
- Pack Size: 2x8.5 ltr
Code: 793502

Outright Sour – HFS, economical

- Safe for all fabrics and will not damage linens
 - Controls discoloring from residual alkalinity
 - Adjust final pH of the water during the last rinse
 - Helps maintain brighter whites and colors
 - Prevents scorching and speckling
- Pack Size: 5 gal
Code: 793205

PTC505 "Green" Sour – for PTC Program

- Designed to adjust the final pH in the wash cycle
 - Prevents scorch yellowing and speckling
 - Retards brown spotting
 - Prevents skin irritations
 - Contains no phosphorus, fluorides, VOCs, APEs or NPEs
 - Rapidly biodegradable
 - Formulated for low temp washing
- Pack Size: 55 gal
Code: 794355

Softeners

Conserv SG80 Fabric Softener Fabric Softener

- Leaves fabrics soft and gentle to the touch
- Contains brighteners and antistatic agents to minimize static
- Aids in the speed and efficiency of dryers and ironers
- Solid form is convenient and safe to handle, with no chance of accidentally spilling on employees, linens, or equipment
- Contains no phosphate, VOCs, alkyl phenols
- Rapidly biodegradable
- Ingredients are made from renewable resources

Pack Size: 2x4 lbs/case

Code: 7924S2

PTC700 “Green” Softener – for PTC Program

- Works in a broad range of temperatures
- Gives superior softening and an outstanding finish to linens
- Lubricates fibers to reduce friction
- Contains special conditioners for fabric care
- Contains no VOCs, NPEs, APEs, Phosphates or flammable liquids
- Leaves fabrics soft and fresh
- Formulated for low temp washing

Pack Size: 55 gal

Code: 792555

Flex Concentrated Fabric Softener

- Highly active quat fabric softener
- Works well over a broad range of temperatures
- Provides outstanding finish to linen
- Increases production
- Reduces static electricity and wrinkling
- Shortens extraction and dryer times

Pack Size: 2x8.5 ltr, 5 gal, 55 gal

Code: 792002, 79205, 792055

Valu Soft Fabric Softener – economical

- Works in a broad range of water temperatures
- Can Lubricates to reduce friction
- Contains special conditioners for fabric care
- Increase production
- Shortens extraction and dryer times
- Leaves fabric soft and fresh

Pack Size: 2x8.5 ltr, 5 gal, 15 gal, 55 gal

Code: 791802, 791805, 791815, 791855

Spectrum Sour/Softener

- Unique blend of softener, conditioner, and neutralizer ingredients
 - Controls pH and keeps linens soft and bright
 - Formulated to control yellowing from iron water
 - Reduces static electricity and wrinkling
 - Aids in processing linens through ironers and high speed folders
 - One capsule yields approximately 400 (50 lb) loads
- Pack Size: 2-5 lbs/case
Code: 7875S2

Complete Sour/Softener

- Controls pH and keeps linens soft and bright
 - Formulated to control yellowing from iron deposits
 - Provides faster, more complete water extraction to reduce dryer time
 - Aids in processing linens through ironers and high speed folders
- Pack Size: 2x8.5 ltr
Code: 787002

Break Out

All Purpose Alkaline Reclaim Additive

- Heavy duty buffered caustic laundry additive to break soils free from fabrics
- Dramatically enhances removal of greasy soils and food stains
- Suspends large quantities of soils in wash water to prevent redeposition and dingy linens
- Economical
- Excellent in all water conditions

Pack Size: 8x1 lb
Code: 747910

Enz Out

Organic Stain Reclaim Additive

- The most advanced product available for cleaning greases, oil stains, food stains and makeup
- Results in cleaner, brighter linens and shorter wash times
- Low pH formula increases fabric life and reduces loss of tensile strength
- Mildly alkaline formula
- Superior wetting and emulsification

Pack Size: 8x1 lb
Code: 747410

Rust Out

Iron & Rust Removing Reclaim Additive

- Removes brown and yellow stains caused by the presence of iron (rust)
- Removes "set" stains, blood stains
- Increases rewash effectiveness
- Removes built-up water hardness residue

Pack Size: 8x1 lb
Code: 747710

Effecto

Multi-Purpose Degreaser and Spot Remover

- Used for laundry pre-spotting
- USDA approved

Pack Size: 2x1 gal
Code: 6115X2

SR1

For Oil Based Stains

- Environmentally friendly
- Contains no hazardous chemicals
- For use before or after the washing process

Pack Size: 4-28 oz.
Code: 79651

SR2

General Purpose

- Spotter used for the removal of a broad spectrum of stains
- Environmentally friendly
- Safe to handle

Pack Size: 4-28 oz.
Code: 79652

SR3

For Rust and Iron

- Contains hydrofluoric acid
- Concentrated product
- Environmentally friendly
- Safe to use

Pack Size: 4-28 oz.
Code: 79653

SRS Starter Kit

2 ea SR1, 1 ea SR2, 1 ea SR3

- Includes SR1, SR2 and SR3

Quick San 10

Quat Sanitizer – 10% to be use as a laundry sanitizer/mildewstat

- When used at 10 oz per 100 lbs of dry fabric weight, provides effective sanitation against
- Staphylococcus aureus
- Staphylococcus aureus methicillin resistant (MRSA)
- Klebsiella pneumoniae
- Pseudomonas aeruginosa

Pack Size: 2x1 gal, 4x1 gal, 5 gal
Code: 5875X2, 587501, 587505

Repel

Waterproofing Treatment- typically to extend life of surgery barrier gowns

- Can waterproof any fabric
- Makes fabrics easier to clean since soils cannot soak into the weave
- Economically restores expensive medical garments
- Easy to use
- Non-hazardous

Pack Size: 5 gal, 55 gal
Code: 797005, 797055

Controller

Soil Releasing Agent – buffers alkalis and saponifies grease and fats, typically used on table linens

- Lifts greasy soil from fabrics
- Suspends grease in wash water to prevent redeposition on fabrics
- Prevents damage to linens that can result from high pH washing solutions
- Safe for all fabrics

Pack Size: 5 gal
Code: 79005

Revive

Liquid Sizing

- Provides invisible protective coating from stains and soils
- Designed for broad usage and easy application
- Contains optical brighteners which enhance colors and whites
- Add body to a wide range of cotton and polyester blends with no build up
- Highly concentrated

Pack Size: 5 gal
Code: 799805

Natura-Sol

Solvent Cleaner – removes oil stains and used for adhesive tape removal

- Solvent based cleaner for direct injection to wash loads
- Based on a naturally produced, renewable resource, not petroleum distillates
- Eliminates pre-spotting or hand treatments
- Non-flammable, safe to use

Pack Size: 5 gal, 55 gal
Code: 791505, 791555

Large Laundries / PTC Program

| PTC 903 Activator | X | X | | | | | | | X |

PTC 202

"Green" Alkaline Laundry Builder – for PTC Program

- Super concentrate
- Used when the best and strongest liquid available is needed
- Attacks even the heaviest of soils
- Cost effective
- Pumpable Liquid
- Contains no phosphorus, VOCs, APEs or NPEs
- Rapidly biodegradable
- For low temp washing

Pack Size: 55 gal
Code: 700755

PTC 305

"Green" DfE – with enzymes, for PTC program

- Dissolves tough stains
- Safe on all fabrics
- Controlled sudsing
- Fast Rinsing
- Contains no phosphorus, VOCs, APEs, NPEs, flammable liquids or corrosives
- Rapidly biodegradable
- Specially formulated for low temp washing
- Recognized by the Environmental Protection Agency's Design for the Environment Program

Pack Size: 55 gal
Code: 784955

PTC 309

"Green" DfE – for PTC program

- Penetrates deep into the soils, removing stains and soils from fabrics
- Contains wetting agents and detergents to break down surface tension
- Controlled sudsing
- Safe on all fabrics
- Fast Rinsing
- Contains no phosphorus, VOCs, APEs, NPEs, flammable liquids or corrosives
- Rapidly biodegradable
- Specially formulated for low temp washing
- Recognized by the Environmental Protection Agency's Design for the Environment Program

Pack Size: 55 gal
Code: 785055

PTC 408

Liquid Oxygen Bleach- for PTC Program

- Disperses rapidly
- Formulated for low-temp washing
- Removes stains
- Gives brighter, whiter and fresher smelling linens
- Safe to use on white and colored fabrics
- Will not damage or discolor items

Pack Size: 53 gal
Code: 799653

Selection Guides, Chemicals and Dispensers Continued

PTC 505

“Green” Sour – for PTC Program

- Designed to adjust the final pH in the wash cycle
- Prevents scorch yellowing and speckling caused by residual detergent or alkali
- Retards brown spotting
- Prevents skin irritations
- Lessens fabric harshness
- Contains no phosphorus, fluorides, VOCs, APEs or NPEs
- Rapidly biodegradable
- Formulated for low temp washing

Pack Size: 55 gal
Code: 794355

PTC 700

“Green” Softener – for PTC Program

- Works in a broad range of temperatures
- Gives superior softening and an outstanding finish to linens
- Lubricates fibers to reduce friction
- Contains special conditioners for fabric care
- Contains no VOCs, NPEs, APEs, Phosphates or flammable liquids
- Leaves fabrics soft and fresh
- Formulated for low temp washing

Pack Size: 55 gal
Code: 792555

PTC 903

“Green” Activator – Oxygen Bleach activator- for PTC program (patent pending)

- Releases oxygen bleaching agents at low temperatures
- Low temp washing
- Greatly increases the effectiveness of hydrogen peroxide bleaching
- Extends life of linens
- Dramatically reduces lint in the laundry program
- Enables use of lower processing temperatures and pHs
- Less effluent to treat, less souring required
- Contains no phosphates, VOCs, NPEs, APEs or flammable liquids

Pack Size: 55 gal
Code: 793055

Sunburst Laundry Dispensers

AST6000

Automatic Dispensing System with Bleach

- Designed for 25-125 lb washers
- Two product dispensing – solid detergents and liquid bleach
- Replay mode with delay option
- Signal times with dual set volumes
- Unique compact design
- Precise product delivery

MSL

Modular Solid Laundry

- Made up of modules that work together as a single dispenser
- Offers both bowls and pumps to allow for solid and liquid laundry product use
- Custom Configurations are available for any combination of pumps and bowls up to a total of 6
- Stock dispensers include: MSL1020, MSL1021 and MSL1030

P4C4000

Multi-Purpose Push-For-Concentrate Battery Operated Dispenser

- Battery Powered
- Moisture and water resistant
- Easy programming for push concentrate
- Easy Installation
- 2 and 10 minute lock out available
- AC adapter available DA0058

The Sunburst Solution

Adding value beyond the basics means that we are committed to our customers. We focus on your needs and take a "Total Approach" to your program.

More than Chemistry...

Sunburst reviews all of our customers' operations. There is more to consider than chemistry alone...

A total top-to-bottom review of a customer's operation can help to achieve a total value solution.

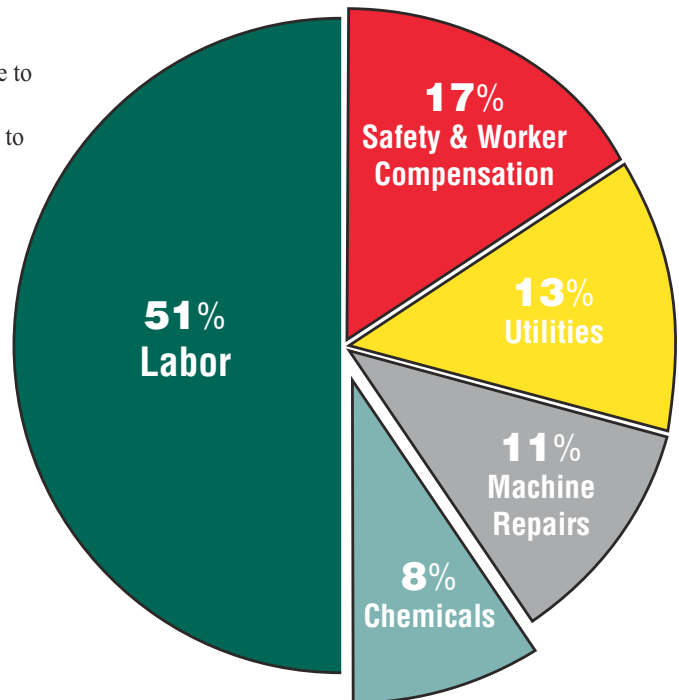

Reducing Total Operational Costs

- Labor
- Maintenance & Repairs
- Utilities
- Injuries and Work Comp Expense
- Replacement Cost of Wear Items

Sunburst Provides Solutions for a Wide Range of Applications Including:

- Hospitals
- Nursing Homes
- Hotels
- Restaurants
- Supermarkets
- Bakeries
- Convenience Stores
- Food Processing Plants
- Commercial and Industrial Laundries
- Schools and Universities
- Prisons

Cleaning chemicals can make up only 8% of an operation's total cleaning cost.

There are larger opportunities to reduce cost in areas other than chemicals.

Reduce & Recycle

Save Energy

Increase Health & Safety

Call us today to discuss a customized, environmentally-friendly cleaning solution.
