CLEANER FLOORS...GREENER WORLD

Proud to be Green

100% of our Polyester Fiber Comes From Post Consumer and Industrial Recycled Waste

All of the synthetic (polyester) fiber used in floor pads produced by Americo comes from recycled materials. Primary sources of these materials are recycled soda and water bottles.

Environmentally Friendly Products

Our products are developed with sustainability in mind, using recycled materials and designed to eliminate the use for harsh chemicals.

Water Based Latex Resins

No phenol-formaldehyde resins are used in our binding process. We only use water-based latex resins.

Recycled Packaging

All of our shipping cartons contain at least 45% recycled materials.

New State-of-the-Art Equipment

We've installed new multi-million dollar state-of-the-art equipment, increasing our energy efficiency by more than 30%.

Waste Water Reduction

Our in-house water treatment facility has reduced our waste water flow by 83%.

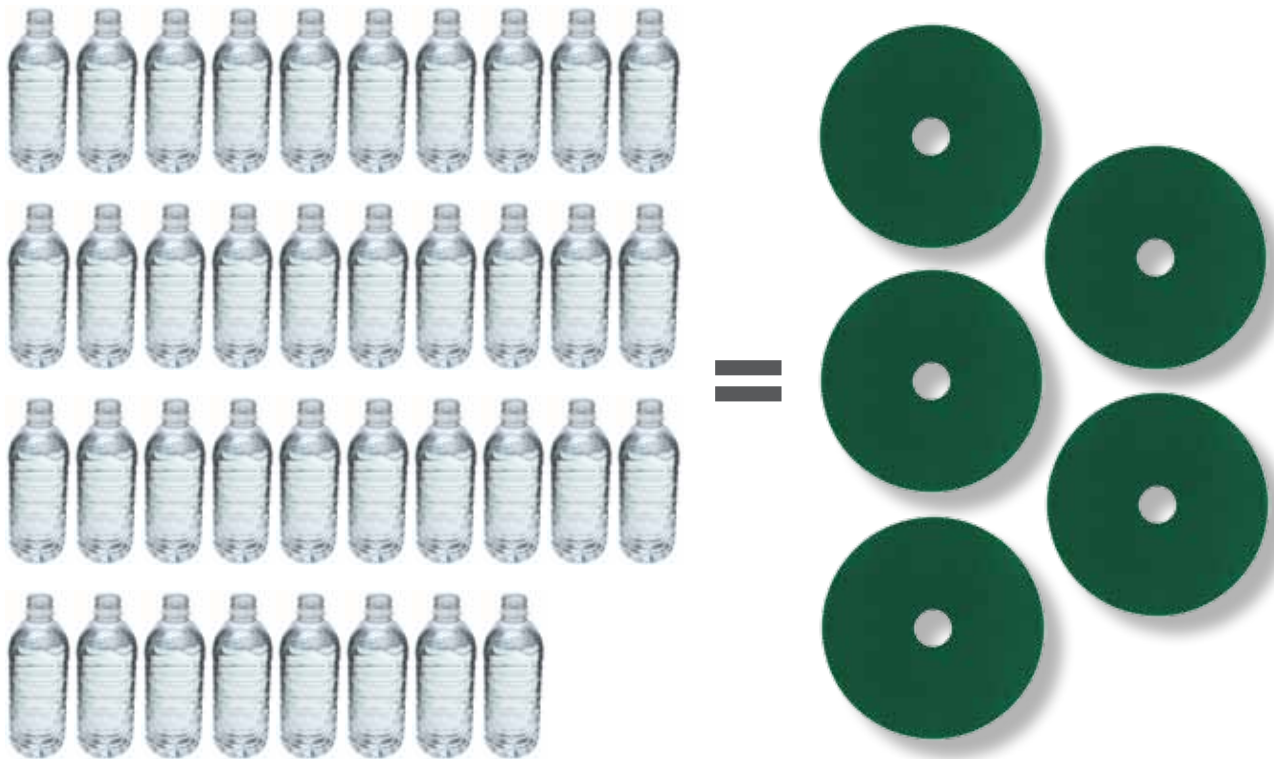

Cleaner Floors.

We use **100% RECYCLED FIBER**

We are proud to contribute to our customers' sustainable position by supplying environmentally friendly products. Prevent used water bottles from going into landfills by using products manufactured by Amerigo.
