**U.S. Manufacturer of Innovative Textile
and Microfiber Cleaning Products and
Programs - Cleaning the World Since 1923.**

Innovative Cleaning Systems Designed With A Persons Body In Mind

History...

...1923

tu way

Innovations that put your needs first have always been the benchmark of Tuway. Since 1923 and the original "2-Way" two-directional dust mops, to our "Zipline" dusting systems, our "Bucketless Mopping System", our industry leading line-up of advanced microfiber products, or our Rocketship-three day or less program, Tuway has been developing products and programs that make *you* the expert.

An early Tuway product display, circa 1936

...1946

TUWAY
Quality Tools for Quality Cleaning

In developing innovative textile cleaning products, Tuway itself has also evolved as a company, and has been pro-active in changing its image, its production procedures, its customer service and ordering, purchasing and shipping procedures, and sales support by supplying its sales force the most comprehensive technology, catalogs, product information sheets, literature needs, and complete program development. This has always been the company-wide "*philosophy*" of customer service for everyone at Tuway.

...1968

**TUWAY
AMERICAN
GROUP**

...1996

So as Tuway's company "*philosophy*" evolved in an ever-changing world, our mission now is to help change the way cleaning professionals *evaluate* how they tackle a cleaning project. So as one reviews not only what products and cleaning solutions are needed for a specific application, what about reviewing the way the operation is performed to achieve the maximum performance?

...2011

The Tuway "*Stage-plus*" program is the answer, and is truly the only flexible cleaning program that allows you to customize a complete maintenance program based on *YOUR* needs and requirements, not on what your supplier has on hand! This program is a significant, innovative and industry leading break-through in the process of cleaning.

Programs for a Cleaner World

When you choose one of Tuway's many innovative, quality products, you're making a decision for better, more cost-effective cleaning that will offer more value for your customers, and more opportunities for you.

Innovation...

Innovations that have always put your needs first have always been the benchmark of Tuway. Since the development of our first "2-Way" two directional mop dust mop back in 1923, to the development of our "Zipline" dusting system, our "Bucketless Mopping System", or our industry-leading lin-up of microfiber, Tuway has always been developing the finest products and programs that make *you* the expert.

Evolution...

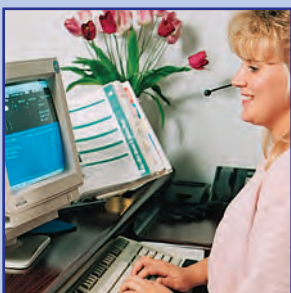

So, as Tuway led the industry in the development and production of textile products, it also evolved internally to reflect the needs of the customer, and the industry. From implementing the finest customer service department, efficient ordering, development of the "Rocket-Ship" 3-day or less shipping, and 24 hour bid replies, and customized program development, Tuway's corporate philosophy became simple: Innovative products, Unsurpassed value, Unwavering customer Commitment. This simple formula has made Tuway a valued partner to cleaning professionals like you, worldwide. As a result, through our field representatives and distribution network, we constantly review and educate the end users to help solve any cleaning problems.

Revolution...

So as it was in the beginning, Tuway has also evolved to have proactive approach to the future of cleaning technology. One of the first to develop "Green-plus Cleaning" microfiber programs customized to suit your needs, or the industry first "Stage-plus" cleaning process program, Tuway can offer you the customer-driven values our competitors cannot. NEW for 2011 two new revolutionary programs.....

INNOVATIVE CLEANING SYSTEMS DESIGNED WITH A PERSON'S BODY IN MIND

Introducing Tuway's Labor Sav"ER"

One Step Simplicity™

Patent Pending

The ER Mop

The Dual Tool Pad Holder

Patent Number US7,124,464B2

Made in the USA

What would YOU do with a 20% labor savings?

With Tuway's Agitator ER process, you can achieve faster, more efficient cleaning without additional tools. With an 18 oz. mop and pads ranging from fine to course there isn't an application that it can't handle!

Did You Know?

The #1 Workplace injury claim is due to exertion.

\$12.7 Billion spent annually on exertion claims.

Compleat Klean

The Complete Microfiber Cleaning System!

When using The Compleat Klean System you will realize a more comprehensive, more efficient, and a more cost-effective cleaning program.

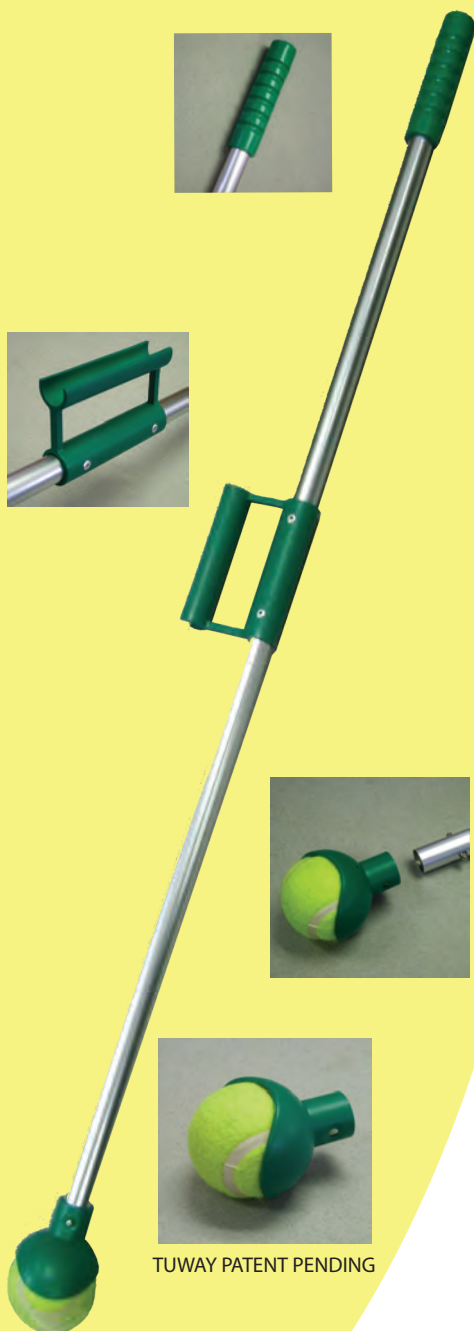

Cleaning the World with Quality and Innovative Products and Programs since 1923.

***Black scuff marks, Shoe marks,
Wheel marks adding time
to your cleaning tasks...***

***...Then try Tuway's
Newest Innovation the***

***The perfect tool for removing black shoe/heel scuff marks,
wheel marks, or any other minor- soiled areas on waxed or
polished hard floor surfaces.***

TUWAY PATENT PENDING

Now there's a perfect tool for removing black shoe/heel scuff or any other minor soiled waxed or polished hard floor surfaces with ease...Tuway's innovative **Scuff-Ace** hand floor burnishing tool.

Lightweight, with an ergonomically designed handle and snap-on attachment to fit a conventional dust mop handle, the Scuff-Ace tennis-ball scrubbing head will easily remove most stubborn scuff marks with ease!

With a detachable tennis-ball head, replacement is a snap, and because it can fit any standard handle, it's the perfect addition to any cleaning cart.

- **Lightweight, easy to use**
- **Durable construction**
- **Replaceable scrub heads, attach easily**
- **Clips-on handle attaches to standard dust handle**
- **Easily fits any cleaning cart**
- **No more bending or stooping to clean scuff marks**

STAGE-plus™

"THE INNOVATIVE CLEANING PROGRAM"

STAGE V Carpet Maintenance

The final stage is periodic carpet cleaning with one of Tuway's carpet bonnets. Our bonnets will extend the life of your carpets while removing cosmetic soiling.

STAGE IV Floor Finish/Burnishing

For areas where floor finish is necessary, our microfiber pads are an effective tool for applying finish in an even and cost-effective manner. If stripping is needed, refer to Stage III, and follow your facilities stripping procedures. You can then apply finish as normal. Routine floor maintenance with our patented PolarPad keeping areas cleaned and polished without unnecessary stripping and refinishing.

STAGE III Wet Mopping

This is where the major cleaning and disinfecting is accomplished. By using one of our advanced damp mops, or our innovative Bucketless Mopping System, you have a wide variety of damp products to suit every application.

STAGE I High Dusting/General Purpose

High dusting includes dusting high items, such as light fixtures, air vents or heating grilles or intakes or anything above eye level. High dusting should always be done first, as any dust or dirt that falls to the floor will be picked-up with further cleaning.

STAGE II Dust Mopping

Dusting any area at, or slightly above ground level is typical of Stage II, and should be done prior to damp mopping to remove any loose dust or dirt. This would include floors, steps, ramps, baseboards, or any area where dust could accumulate.

How to Choose the Right Dust Mop

Proper dust mopping is the easiest, most productive way to preserve the appearance and longevity of floor finishes, while lowering overall floor-care costs.

Tuway offers a wide variety of dust mops to assist in the efficient removal of dust, grit and dirt. The following information can help you in choosing the right dust mop for your needs.

Yarn

Cotton is the most popular and economical dust-mop yarn. Cotton is often blended with synthetic fibers to add strength. Some of these yarns are designed to withstand laundering. Because they don't require laundering, disposable dust mops are made with bulky, loosely twisted

yarn that actually picks up dust better. Our launderable Loopmaster™ cotton yarn combines exceptional durability with outstanding dust pick-up. Our Astrolan™ yarn has electro-static properties that attract dust particles without the use of treatment.

Backing Styles

Backing Material

Synthetic backing material dries much faster and absorbs less treatment than cotton. We offer a variety of backing styles including: Break-Away, Open Back, Key Hole, Slant Slip and Envelope (illustrated above). Choose from easy-to-use ties or optional chrome-plated snaps. Backing

colors include: red, yellow, orange, blue, green, and white. Our unique Zipline system incorporates a special Velcro style backing that secures the mophead instantly and effortlessly.

Cut-End

The cut-end dust mop, though more economical at first, tends to fray, unravel and lint. These problems decrease its performance and lead to replacement of the mop. These

problems are intensified by laundering. Our Loopmaster™ yarn solves this problem by looping and twisting the yarn fibers.

Looped-End

By trapping more dust, producing less lint, and resisting tangles, the looped-end dust mop delivers maximum performance. Because looped-end yarns withstand heavy use and frequent laundering without unraveling, linting

is virtually eliminated. Looped-end yarn is available in long loops for maximum coverage or short loops for health care and specialty applications.

Durability

High quality construction standards produce the best dust mop value. Reinforced stitching at stress points is a sign of better mop construction. Innovative yarns, like our

Tennessee™, Astrolan™ and Loopmaster™, can provide both longer service and improved performance.

Size

The longer a dust mop, the more area it can cover in a single pass. A 5" dust mop remains effective longer before unloading, than a 3-1/4" dust mop. However, dust mop

size is also dependent on obstructions and area size. A narrower, shorter dust mop is far easier to handle, and reaches into places where longer dust mops can't.

Stage II - Dust Mopping

Dust Head - Wedge Mop - Conventional - Launderable

Colors  

Great for use in tight areas, such as classrooms or offices. Lies flat for easy under furniture access. Mop heads are easily removable and launderable. Refill mop heads allow for fast and easy changes.

Stage II - Dust Mopping

Dust Mop - Astrolan II™ - Conventional - Launderable

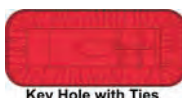

Color

This dust mop's electrostatic properties act like a dust magnet, picking up and holding dust without treatment. Provides better dust collection than untreated cotton dust mops. Ideal for use in chemical sensitive areas, such as laboratories and hospitals. Yarn is extremely durable won't lint or fray, even after many launderings.

Better

- Tuway's rating - BETTER
- 2 ply, cut end, 100% nylon yarn
- 100% polyester backing. Only available in blue yarn with blue backing. Standard backing is keyhole with ties
- Available in 5" and 3 1/4" widths and in lengths from 12" to 72"
- 100 to 150 depending upon consistency of laundry process in relation to Tuway's laundry specifications
- Competitor cross references: Golden Star-Staran Dust Mop, O'Dell-Clinger Magnetic, Rubbermaid-Superstat Loop Dust Mop, Wilen-Durastat Dust Mop

T-BALL-RF	Tennis Ball Scuff Remover - Replacement Head	6	2 3/4"	1.8

Dust/Damp/Wet - Laundry Net - Conventional/Microfiber - Misc

Launderable wet mops and dust mops last longer and tangle less when laundered in Tuway's top quality laundry net.

- Constructed to commercial standards
- Durable synthetic mesh
- Includes drawstring and ID label

Stage II
Dust Mopping

Part Number	Description	Cs Qty	Size	Cs Wt

DS-7-12	Laundry Net - Durable Mesh - 24" X 36"	12	24" x 36"	3.72

Stage III - Damp Mopping

Damp Pad - Microfiber - Launderable

Colors

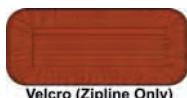

Excellent for damp mopping, these launderable pads are the perfect tool for quick and efficient cleaning. Microfiber's state of the art design allows for improved absorbency and superior pick-up. Microfiber mechanically picks up surface debris - It reduces bacteria by 98% compared to traditional mops.

Good

- Tuway's Rating – GOOD
- Microfiber/Polyester – 80/20 blend – wrap knitted weave
- Nylon loop velcro backing
- Foam insert for improved absorbency (without foam order MMS 18ZLNF)
- Industry's standard damp pad
- Lengths: 18", 24", 36", or 48" – Width: 5"
- Use with Tuway's aluminum frames with velcro and aluminum handles
- Competitor cross references: Golden Star-40WET/Micromop, Impact-3171/LFWM18, Rubbermaid-Q410, Wilen-C103020 Super Pro II

Stage III - Damp Mopping

Damp Pad - Looped - Microfiber - Launderable

Colors

Excellent for damp mopping, these highly launderable pads are velcro backed for convenient frame application. Designed for rougher surfaces as well as smooth surfaces to pull particles in cracks and grout lines.

Best

- Tuway's rating - BEST
- Microfiber – 80/20 yarn blend – twisted weave loop
- Polyester hook velcro, polyester pocket or polyester 3-pin tab style backing
- Premium pickup of dust load
- Looped microfiber for multi-level floor surface cleaning
- Microfiber insert for increases absorbency
- Green and white or blue and white stripped – twisted loops
- Lengths: 9, 16 1/2" or 18"
- Use with Tuway's fixed or ext. aluminum handles and one of our (4) frame options; standard velcro frame, 3-pin breakaway frame, pocket breakaway frame or PTZ frame
- Competitor cross references: CPI-WAVEHOOKB18 (blue/white) and WAVEPOCKETG18 (green)

How to Choose the Right Wet Mop

The Tuway family of wet mops includes a variety of yarns, headbands and construction styles. To choose wisely, just follow this simple three-step process:

- 1 Determine cleaning task(s) you want the mop to perform.
- 2 Review available yarn types and mop construction characteristics.
- 3 Select the mop that best matches your application.

Yarn

Certain yarns are better suited to a specific cleaning task than others. To get maximum efficiency and value from a wet mop, it's important to select the right yarn for the job.

Yarn	Advantages	Disadvantages
 Cotton	Excellent absorption and retention. Low initial cost.	Requires break-in. Lints and dries slowly. Subject to mildew and deterioration.
 Rayon	Quick absorption and release. Dries fast, mildew resistant. Cleaner yarn, lints less.	Less liquid retention.

Yarn

Microfiber

Advantages

Mechanically cleans.
Longest life.
Excellent absorption and release.

Disadvantages

Higher cost than cotton.

Synthetic

Long-staple fiber for superior tensile strength, no lint.
No break-in required.

Higher cost than cotton.
Poor absorption.

Blends

Balanced to provide performance and durability. Synthetic fibers add strength.

May shrink unless pre-laundered.
Reduced break-in period.

Yarn Ply

Yarn ply indicates the number of strands twisted together to make a single piece of yarn. More plies provide greater strength, though higher ply numbers are not a good

predictor of higher yarn quality. A higher-quality, low-ply yarn is invariably better performing and more cost effective than a lower-quality, high-ply yarn.

Twist

"Twist" refers to how tightly individual yarn strands are wound together. While a tightly twisted yarn might be stronger and more durable, absorbency may suffer. Twist

can be judged only in combination with yarn quality and mop construction.

Styles

Cut-end mops are generally lowest in initial cost. Over time, cut-end mops fray and unravel, creating lint and leaving loose strands behind. In addition, cut-end mops leave gaps between yarn strands and have limited "spread", thus covering less area per pass. Some models have tailbands, which reduce these shortcomings. Since cut-end mops should not be laundered, their useful life is limited.

With Looped-end mops there are no cut ends to fray or unravel. A special tailband assures wide, gap-free "spread" for maximum productivity. Tailband also eliminates yarn tangling and snagging. Since looped-end mops can be laundered and reused over and over, they last far longer than cut-end mops.

Sizes

Mop size should be matched to cleaning task, mop wringer, and user size. (Remember, premium-grade mops hold up to five times their weight in water.) In open areas,

larger size mops are generally more efficient. In confined or obstructed spaces, smaller mops may be more maneuverable and easier to use.

Headbands

1-1/4" headbands are designed for use with slide-on or thread-through style handles. They are well suited for laying finish or applying disinfectants. 5" headbands are

particularly suited to clamp-style handles. The synthetic mesh material permits nonabrasive scrubbing to help dislodge dirt.

Stage III - Damp/Wet Mopping

Wet Mop - Revo Loop - Loop End - Microfiber - Launderable

Colors

Latest microfiber technology allows for a direct replacement of your current conventional mop wet mop program. Up to 2x's more absorbent than most synthetic mop blends in the market. Superior strength and launderability. It will "Revo"lutionize your cleaning process.

- Tuway's rating – SUPERIOR
- **Our highest rated wet loop**
- 100% Microfiber
- Tuway's highest performance wet loop mop
- Yarn strength: 3x's stronger than conventional mops
- Standard is double tailband
- Highly launderable can be laundered with other textiles
- Combination of conventional wet mop construction with microfiber cleaning performance
- Mop sizes: small, medium and large – Headbands: 1" or 5"
- Use Tuway's conventional wet mop handles and our "new" Dual Tool Pad system
- Competitor cross references: Wilen-Duraloop A09001, Rubbermaid-Q812/Q852

Stage III - Damp/Wet Mopping

Wet Mop - Wide Track® - Loop End Blend - Conventional - Launderable

Premium 4 ply cotton/polyester/acrylic blended yarn provides absorption and durability you would expect from a looped end mop. This is the industry's best general purpose, launderable, looped end wet mop. Available in small, medium, medium-large, large and extra-large.

Better

- Tuway's rating - BETTER
- 4 ply, looped end, cotton/polyester/acrylic blend yarn
- 1 1/4" or 5" headband. Standard headband colors for natural yarn are: 12 oz. is white, 16 oz. is green, 20 oz. is white, 24 oz. is orange and 32 oz. is blue. For colored yarn, headband matches yarn color
- 5" headband is 100% vinyl coated mesh for added strength
- 25 to 50 washings depending upon consistency of laundry process in relation to Tuway's laundering specifications
- 90% recycled material content
- Competitor cross references: Golden Star-Comet Blend Looped-end, O'Dell-Looped 400 Series, Rubbermaid-Web Foot Looped-end, Wilen-Fantastic Looped-end

Stage III - Damp/Wet Mopping

Wet Mop - Syn Track - Loop End Synthetic - Conventional - Launderable

Conventional

Colors

When it comes to maximum launderability, nothing beats Syn Track. Tough synthetic blend yarn takes harsh usage and repeated launderings and it keeps on coming back for more. Lint free yarn with a mesh headband that is ideal for getting dirt and debris up off the floor.

- Tuway rating – SUPERIOR
- Our highest rated conventional (non-microfiber) wet loop
- Polyester/rayon blend material, synthetic yarn scientifically designed for maximum absorbency, release and durability
- 1 1/4" or 5" headbands. 5" headband available in 100% vinyl coated mesh to add strength. Yarn and headband colors available are orange, yellow, blue, white, natural and green
- Standard headband colors for natural yarn are: 12 oz. is white, 16 oz. is green, 20 oz. is white, 24 oz. is orange and 32 oz. is blue. For colored yarn, headband matches yarn color
- Standard mop is natural yarn with corresponding headband color listed above
- 50 to 100 washings depending upon consistency of laundry process in relation to Tuway's laundry specifications
- 90% recycled material content
- Competitor cross references: Golden Star-Synergy Looped-end, O'Dell-Looped 5000 Series, Wilen-JW Atomic Loop w/Rayon Looped-end

Conventional

Optional 5" double-layer mesh headbands protect yarn from wear and abrasion.

Rugged double-stitched tailbands hold yarns firmly in place, preventing tangles.

Open-looped construction prevents fraying and linting, prolongs mop life.

Stage III - Damp/Wet Mopping

Wet Mop - Micro Track - Loop End Synthetic Antimicrobial - Conventional - Launderable

Conventional

Colors

This high performance launderable wet mop provides all the advantages of a looped end, tail banded construction, in a unique rayon/polyester yarn blend.

Best

- Tuway's rating - BEST
- 4 ply, looped end, polyester/rayon/blend yarn
- 1 1/4" or 5" headbands. 5" available in 100% vinyl coated mesh to add strength
- Standard headband colors for natural yarn are 12 oz. is white, 16 oz. is green, 20 oz. is white, 24 oz. is orange and 32 oz. is blue. For colored yarn, headband matches yarn color
- Standard mop is natural yarn with corresponding headband color listed above
- Faster mop drying time inhibits mold and mildew growth. Engineered with permanent **antimicrobial treatment** to inhibit growth of bacteria, mold, mildew and fungi on mop head
- 50 to 100 washings depending upon consistency of laundry process in relation to Tuway's laundry specifications
- 90% recycled material content
- Competitor cross references: Golden Star-Patented Barricade Looped-end, O'Dell-Looped 4200 Series, Rubbermaid-Web Foot Shrinkless Looped-end, Wilen Pro M or Super Crown Looped-end

Stage III - Damp/Wet Mopping

Wet Mop - Mop Master - Wet Loop Cotton - Conventional - Disposable

Conventional

Color ☐

The Mop Master delivers the advantages of looped end yarn, but does not have a widespread tailband. The result: premium performance and longevity and economically priced just above a cut end mop.

Good

- Tuway's rating - GOOD
- 4 ply, looped end, 100% cotton yarn.
- 1 1/4" headband available
- Standard mop is natural yarn
- **Small, Medium and Large packaged in "brick" form** 100% recycled material content

Part Number	Description	Cs Qty	Size	Cs Wt
MM-SM	Mop Master - 4 Ply 100% Cotton Looped End - Small - Natural	12	Sm	13

Stage III - Damp/Wet Mopping

Wet Mop - ER Mop System - Conventional - Disposable

Colors

The Agitator ER mop is a mop designed to be used with our Dual Tool Pad system. Mop comes in three different styles, ideal for any type cleaning industry.

Best

- Tuway's rating – BEST (complete system rating – conventional material)
- Dual purpose scrubbing and mopping for cleaner, safer floors
- Available in ALL Tuway mop material types
- Mop design increases surface cleaning which reduces labor costs
- Light weight mop results in lower exertion by operator
- Three pad options available for various floor conditions
- Use with any Tuway's mop handles and connectors
- Patent Pending
- Competitor cross references: N/A

TUWAY AMERICAN GROUP

Phone: 800-537-3750

Fax: 800-426-3964

Terms and Conditions

Credit: To establish credit, call our Credit Department, Customer Support Department or your local Tuway Representative. Credit Application can be found on our web site www.tuwaymops.com.

Packaging: See specific Product Detail for standard packaging. Any order less than a case will be charged a 20% surcharge (per piece). Bar coding available upon request.

Private Label Program: Additional cost for private label will apply. Minimum Order and Special Order Terms (see below) will apply. Please contact our Customer Support Department or your local Tuway Representative for details on our Private Label Program.

Special Orders (Manufactured or Purchased Products): Custom products are available. Customer shall be responsible for the full purchase price on any special orders changed or cancelled once manufacturing has begun. Returns will not be accepted on these items. Note that non-standard products may be shipped at plus or minus 10% of order product quantity.

Standard delivery times do not apply to special orders. Contact Customer Support Department for details.

Add-On Orders: Every effort will be made to accommodate "Add-ons". However, "Add-ons" may prolong delivery of the initial order. Contact our Customer Support Department for details.

Rocket-Ship: Rocket-Ship is an emergency shipping program for selected Tuway-brand products. Orders are guaranteed to ship within 48 hours or less. There are no minimums and freight is prepaid anywhere in the contiguous U.S. For Hawaii, Alaska and U.S. Territories, freight will be prepaid to the U.S. border. All other terms of the Rocket-ship program apply.

Rocket-Ship must be noted on all purchase orders to ensure proper order processing. Rocket-Ship pricing is 50% off list.

Freight: Freight is F.O.B. Rockford OH. Tuway will prepay freight on **\$1,900.00** or more shipped in the contiguous U.S. using **Tuway SPECIFIED Carrier**. Prepaid freight outside the U.S. will be determined on a per order basis.

- **Tuway will not pay any extended freight handling charges such as, but not limited to; Sort and Segregate, Delivery Appointments, etc.**

As of February 1, 2006 Tuway will assess a fuel/freight recovery charge to each invoice. This charge is necessary to offset the increase in fuel and freight costs that have occurred over the past years. The amount is 2% and will be assessed as long as Tuway experiences additional freight charges from its carriers related to increased fuel prices.

Bid Pricing: Tuway American Group will adhere to our quoted bid pricing only when the proof of delivery to the end user, a bid number and/or any other supporting documentation verifying the pricing is being used for a school bid or government bid only. Once proper P.O.D. documentation is received by Tuway, the appropriate credit will be issued.

Damage and Shortage Claims: Shipment damage must be filed with the carrier on a timely basis. Any shortages **must** be signed for and reported within 24 hours of receipt of shipment to Tuway Customer Support Department.

Returns: Merchandise returns apply **only** to Tuway-branded products. Return requests must be filed within **ninety (90)** days of shipment and are subject to a 25% restocking charge. A Return Authorization (RA) number is required for all returns. Please contact the Customer Support Department for assistance.

Invoicing: Customer shall not take deductions from any Tuway invoice, without prior approval (via Tuway credit number) from Tuway American Group's Customer Support Department. Bid/Quote Numbers must appear on ALL orders/bids.

Minimum Order: **Tuway's minimum order is \$250.** Any order less than **\$250** will be assessed a service charge of **\$25.00**

Payment Terms: Net 30 Days 1.5% per month will be charged on an open balance exceeding 30 days.

Payment Options: Credit cards are accepted, however, they are subject to a 4% service fee.

Check Remittance: Make all remittances to:
Tuway American Group
2820 West Maple Road, Suite 101
Troy, MI 48084

Venue and Governing Law: Customer, by signing the purchase order attached to these terms and conditions agrees to the following provisions: a) Michigan law shall govern this transaction and any conflict of laws shall not apply; b) venue for any disputes shall be in Oakland County, Michigan; c) any dispute shall be determined by one person arbitration with a reasoned award stating findings of fact and conclusions of law and reasonable time for payment by the losing party if any as determined by the arbitrator, the costs of the prevailing party's attorney fees and the arbitrator's fee shall be borne by the against whom a decision is rendered. Either party may petition for arbitration with an appropriate service that conducts arbitrations and must give notice to the other party of its intent.

Prices and or product offerings subject to change without notice.

Please Note: Changes or cancellations may not be available after receipt of purchase order.

ARE YOUR GROUTED TILE FLOORS CLEAN & SAFE?

**The Dual Tool fits on a mop handle and allows
the floor to be scrubbed while you are mopping.**

Are your employees deck brushing? (Would you like them to?)

Tuway American Groups Dual Tool Pad Holder will allow you to do that.

www.tuwaymops.com

**Cleaner floors = Safer Floors = Safer Customer =
Reduced Slip & Fall Insurance Claims.**
